

The Yun Family's Ninth Child is an Imp! Chapter 1836

Manager Xia was even more vexed when she saw these onlookers. She said to them, "It's forbidden to gather outside the Mo residence. All of you, Disperse!"

Someone sneered, "Manager Xia, it's forbidden to gather outside the Mo residence. It's a pity that your mo residence doesn't have a door anymore. What's stopping you from chatting on the street?"

"That's right. Although your mo residence is powerful, you can't stop us from basking in the sun on the street, right?"

"This Mo residence is really overbearing. Why didn't miss mo blow up the entire Mo Residence?"

..

Manager Xia saw that the few people who were talking were from other powerful forces, so she could only suppress her anger and walk in.

Yun chujiu followed behind her, looking around and strolling slowly. Although manager Xia was furious, she was afraid that Yun Chujiu would be foolish enough to come up again, so she didn't dare to urge her.

At that moment, the Masters in the Mo residence were also shocked by the loud noise.

Manager Xia said it nicely. She said that Mo Cheng, the head of the Mo family, and Luo Shi were waiting for Yun Chujiu at home. In fact, no one treated Yun chujiu as a person. They were all busy with their own matters.

When everyone heard the noise, they came to the living room to ask what had happened.

Mo Cheng furrowed his brows tightly, his heart was filled with uncertainty. Could it be that someone had come to provoke him? Such a huge noise, could it be that a talisman had been used?

Very quickly, a guard came to report. That Guard's expression was stiff as he said, "Reporting to family head, the noise just now was, was..."

Mo Cheng snorted coldly, "What was it? Speak quickly! You Can't even speak clearly! What a waste!"

The guard could only grit his teeth and say, "It was the eldest miss who used the talisman to blow up the mansion!"

What the hell?

Mo Cheng thought there was something wrong with his ears and raised his voice, "Who do you think used the talisman to blow up the mansion?"

"Yes, it was the eldest miss! It was the eldest miss that manager Xia brought back."

Mo Cheng took quite a while to digest this information, then, he slapped the coffee table and said, "How outrageous! Is this unfilial daughter trying to rebel? ! She just came back and actually blew up the mansion. Won't she blow up our Mo residence in a few days? !"

A beautiful middle-aged woman sat beside Mo Cheng. It was Mrs. Luo, she said gently, "Master, don't be angry. There might be some hidden reason behind this. Besides, Fangcao has always lived in a low-level continent. It's understandable that she's reckless."

"Humph! No matter how reckless she is, she won't blow up her own family's mansion as soon as she comes back. I don't think she's reckless. She's deliberately showing off!" Not only did Mo Cheng not calm down after hearing Madam Luo's words, he was even angrier.

Madam Luo saw that Mo Cheng's expression was even more unsightly, and a trace of pride flashed in her eyes. This Mo Fangcao was really an idiot. She did such a stupid thing as soon as she came back. At first, she thought that she would bring some trouble.., but now, it seemed that there was nothing to be afraid of.

At this moment, a maid came in and reported, "Master, Madam, manager Xia requests to see you."

Manager Xia had a very good plan in mind. She wanted to first go in and report the matter of Yun Chujiu squandering more than 20 million spirit stones, and then let Yun Chujiu go in.

Unexpectedly, Mo Cheng was in a fit of anger. He angrily said, "Let that rebellious girl come in together!"

After the maid went out to speak, manager Xia had no choice but to bring Yun chujiu into the living room.

The moment Yun chujiu entered, several pairs of eyes fell on her.

After seeing Yun Chujiu's appearance, Mo Cheng's expression became even gloomier, he suddenly slapped the coffee table. "Unfilial daughter! You blew up the manor as soon as you came back. How dare you! Men! Lock this unfilial daughter into the woodshed. No one is allowed to bring food to her without my orders!"
