

## The Yun Family's Ninth Child is an Imp! Chapter 1841

Just as Madam Luo was feeling puzzled, three more people ran over.

Madam Luo took a look and saw that she recognized all three of them. They were the shopkeepers of the jewelry shop, the equipment shop, and the grocery shop.

Madam Luo was very puzzled. What were these three people doing here?

After the three shopkeepers bowed to madam Luo, they respectfully bowed to Yun Chujiu, then, they said to manager Xia, "Manager Xia, there's no need to trouble you to send US Spirit Stones. Since Madam Luo is also here, you can settle the debt with us!"

Manager Xia's clothes were soaked in cold sweat, and her legs were a little weak. But now that she was forced into this situation.., she could only bite the bullet and say, "Madam, this, this, when the eldest miss entered the city, she said that she wanted to buy some things for you and the master. These three shopkeepers are here to settle the debt."

Madam Luo was stunned. This country bumpkin actually knew how to give gifts to please us? However, why did you ask manager Xia for money for a gift?

Although Madam Luo was puzzled in her heart, she still said lovingly, "You child, really! What Gift? ! As long as you come back, it's better than anything else ... I reckon that you also don't have any money on you. Since you've already bought it, I'll help you pay for it " ... how much does the herb owe you?"

Madam Luo felt that it was at most a few tens of thousands of spirit stones. Even a country bumpkin probably wouldn't dare to buy anything expensive.

"Madam Luo, miss mo owes our jewelry store five million high-grade spirit stones."

"Madam Luo, miss mo owes our jewelry store eight million high-grade spirit stones."

"Madam Luo, Miss Mo owes our grocery store five million high-grade spirit stones."

Madam Luo thought she had misheard. "How much did you say? Five million? Eight million? Five million? Are you sure you didn't say an Extra Hundred Words?"

Yun chujia said smilingly from the side, "Second aunt, you didn't Mishear, a total of eighteen million! Do you think I'm being too thrifty? I feel that although our mo residence has a big business, we still have to be thrifty! "That's why I didn't buy anything too expensive."

Madam Luo felt that her brain wasn't enough. This country bumpkin spent 18 million yuan on a gift? How was this possible? Was manager Xia a dead person? ! Just let her do whatever she wanted? !

Manager Xia was about to faint when she saw Madam Luo looking at her, she could only bite the bullet and say, "Madam, they, they are telling the truth. Not only did the eldest miss buy these 18 million items, but this servant also helped her pay 3,430,000 high-grade spirit stones. Those spirit stones were used by the eldest miss to buy clothes, snacks, and the ten tables of the banquet at Ji Qing restaurant."

Madam Luo almost fainted from anger. The total cost was more than 20 million! This country bumpkin had spent so many spirit stones the moment he arrived?

"Second aunt, why aren't you saying anything? Are you blaming me for buying a gift? Didn't you say that you wouldn't blame me no matter what I do?" Yun chujiu asked timidly as she tugged at the corner of her clothes.

Although madam Luo wished that Yun Chujiu would return all the items, she couldn't afford to embarrass that person in public. She gritted her teeth and passed the spiritual stones to the three shopkeepers.

Yun chujiu immediately beamed with joy. "Second aunt, you really mean what you say! Don't worry, these things of mine are all used as gifts for you. You will definitely be very happy when you receive them."

Happy?

Madam Luo was crying so hard that she felt like crying. It would be a miracle if she could be happy!

However, this country bumpkin could still recoup most of the losses by sending the things he bought as a gift. Madam Luo felt a little better after thinking about it.
