

The Yun Family's Ninth Child is an Imp! Chapter 1857

Two hours later, they arrived at the dense forest outside Jin Chuan City.

Yun chujiu looked around. The scale of this dense forest was not small. There must be many demon beasts living in it. However, with so many people here, it should be safe.

After everyone entered the dense forest, perhaps because there were too many people, the demon beasts all fled upon hearing the news. Therefore, they did not encounter a high-level demon beast for a long time.

Manager Xia immediately had an idea. "Everyone, although you all have good intentions, there are too many people, so the demonic beasts don't dare to come over. Do you guys want to see if you can stay a little further away?"

Manager Xia thought that with her words, these people would definitely take the initiative to leave. At that time, she would be able to carry out her plan.

However, what she did not expect even in her dreams was., someone said, "Isn't it just a demonic beast? That's easy to handle. US brothers will drive a few demonic beasts over. We will surround the demonic beasts in the middle. This way, Miss Mo's life will definitely not be in danger."

Manager Xia was so angry that she almost spat out a mouthful of blood!

Are these people all brainless? !

Is this country bumpkin your ancestor? !

Why are you all thinking of her so much? ? ! Ah? For what? ! !

Manager Xia had obviously underestimated the determination of some people who were finally able to become heroes who helped the weak. At this moment, these people's hearts were filled with the desire to uphold justice.

Moreover, they didn't mind the fuss. Emma, a heroine who dared to blow up her own house couldn't die just like that. If she died, they would have a lot less fun in the future!

Therefore, a group of people drove out a level 27 golden-horned wind-blade leopard from the depths of the forest. The golden-horned wind-blade leopard was trapped in the middle of the crowd and kept roaring.

"Miss Mo, we haven't found a demon beast weaker than this for a while. You can use this to practice your skills. Don't worry, with us here, you won't be in danger," the onlookers said enthusiastically.

Manager Xia heaved a sigh of relief when she saw that they had found a 27th level demonic beast. This 27th level demonic beast was equivalent to a human cultivator at the sixth level of the spiritual venerable realm, this country bumpkin was only at the second level of the spiritual venerable realm, so he definitely couldn't beat this golden-horned wind blade leopard. Although he wouldn't be injured, he would definitely lose face.

The golden-horned wind blade leopard was quite intelligent, so it naturally understood everyone's words. It hated Yun Chujiu to death in its heart. It turned out that it had been driven here to practice its skills on this stinky girl. It was really detestable!

The golden-horned wind-blade leopard stomped its hind legs on the ground and roared at Yun Chujiu.

"Kitten, What Are You Screaming For? You should feel honored! There are so many demonic beasts in the dense forest, but only you were chosen. Your Luck is simply too good!" Yun Chujiu said with a smile.

Kitten?

Everyone's faces were filled with confusion. Could it be that this miss mo couldn't even distinguish between a cat and a leopard? Could it be that all cats in the Tian Yuan continent had grown so Big?

The golden-horned wind blade leopard was even more enraged. This damned Brat, you are the cat, your entire family is a cat! Good Luck? It was simply a stroke of bad luck to have met you in eight lifetimes!

The golden-horned wind blade leopard angrily pounced towards Yun Chujiu. When everyone saw that Yun Chujiu did not move, their hearts could not help but raise. Could it be that this miss mo was scared silly?

Just as some people were about to help, they saw Yun chujiu suddenly leap to the side to dodge the attack of the gold-horned wind blade leopard. Then, she shot out several purple lightning bolts towards the gold-horned wind blade leopard!

The spectators could not help but exclaim in surprise. This miss mo actually had a heavenly thunder spirit root!
