

The Yun Family's Ninth Child is an Imp! Chapter 1946

After sending Yun Chujiu away, Mo Xiaoting arrived at the reception hall.

A moment later, Mo Cheng and Luo Shi accompanied an old man into the room.

“Father, this is the second elder of the Zhao family. He has specially come to discuss the marriage between Fang Cao and us,” Mo Cheng said with a bow.

Mo Xiaoting was furious when he saw Mo Cheng and Luo Shi fawning over him. How embarrassing!

“Oh, it's second elder Zhao. Please have a seat. Someone, come and take a look at the tea,” Mo Xiaoting's tone was a little distant and unfriendly.

The second elder of the Zhao family only nodded slightly before sitting down. He did not even say a word of courtesy. It was obvious how arrogant he was.

Luo Shi said from the side, “Father, should we call out the fragrant grass for the second elder to take a look?”

“How dare you! How dare a woman like you interrupt us? Get out of Here!” Mo Xiaoting shouted unhappily. Catching a child was not a business deal, not to mention it was not a business deal.

Luo Shi’s face was red from embarrassment. She took her leave, her heart filled with hatred. Old Fart, just you wait!

After scolding Luo Shi, Mo Xiaoting picked up his teacup and drank his tea without a word.

The second elder of the Zhao family did not expect Mo Xiaoting to have such an attitude. When he saw Mo Cheng and Luo Shi trying to curry favor with him, he originally thought Mo Xiaoting would have the same attitude. But, he did not expect Mo Xiaoting to be so unpredictable.

“Master Mo, let’s not beat around the bush. I am here to help my nephew, the youngest son of the Zhao family, propose a marriage. As long as the marriage is confirmed, our two families will be in-laws. Not only will the betrothal gifts be generous, the dao talismans that the Zhao family specializes in will be offered to the Mo family at the lowest price,” the second elder said, he looked at Mo Xiaoting confidently. He did not think Mo Xiaoting would reject his offer.

The dao talismans business had a huge profit margin, but it was only possible if there was a source of supply. There were very few high-level Talisman Masters on the Immortal Yuan continent. So, if any family had a few talisman masters, it would be like raising a money tree.

The Zhao family was a famous talisman family on the immortal Yuan continent's western continent. Almost all of the talismans on the western continent were supplied by the Zhao family. If they could get their hands on the low-priced talismans, it would be a huge profit.

This was also the reason why Mo Cheng took such a huge risk to bring Yun chujiu back. As long as he signed a partnership agreement with the Zhao family, the benefits would be huge.

Although Mo Xiaoting had expected this, he was still shocked by second elder Zhao's words. As long as he married the herb, he would receive such a huge benefit. It was simply too worthwhile.

If it wasn't for Yun Chujiu's face-painting and her words, Mo Xiaoting would have agreed without hesitation. At most, he would have added a few additional conditions.

But, at this moment, he began to hesitate, a troubled expression appeared on his face, "Second elder Zhao, logically speaking, this marriage should be a good one. But, Fang Cao has just been found and she has suffered a lot over the years. We can't make such a hasty decision. I need to ask her for her opinion."

Second Elder Zhao furrowed his brows. He originally thought that Mo Xiaoting would agree to it after he finished speaking, but he didn't expect Mo Xiaoting to give him an ambiguous answer.

Mo Cheng couldn't sit still any longer and said anxiously, "Father, marriage has always been arranged by parents since ancient times. What does a little girl like her know? ! Where can you find such a good marriage? Please help her make a decision!"
