

The Yun Family's Ninth Child is an Imp! Chapter 1972

Shopkeeper Pei thought to himself, looks like the master really doesn't want to use me anymore. Otherwise, why would he bring up such an impossible bet? !

Not to mention that this grocery store wasn't profitable to begin with, even the earnings of the Jinxiu Manor couldn't compare to the nine stores!

Shopkeeper Pei forced himself to stop crying, "Miss Fangcao, if you want to earn more money in a short period of time, then you can only lower the selling price of the talismans. With a small profit, you can sell more! Other than that, there's no other good way."

"Shopkeeper Pei, you might not know this, but the Zhao family will cut off our supply of talismans soon. So after we sell all the talismans in stock, our grocery store will have no more talismans to sell!" Yun Chujiu said with a smile.

Shopkeeper Pei howled again. He was even sadder than before. It's over, it's over, it's really over this time! This grocery store was going to close down soon!

Yun chujiu ignored him and walked to the counter. She looked around and found that the sundries here were quite complete, but the quantity was a little small.

Shopkeeper Pei howled for a while, but when he saw that no one was paying attention to him, he could only get up embarrassedly, with a sad face, he said, "Miss Fang Cao, our store only has about a thousand talismans in stock. Even if we sell them all, it will only be higher than the profit of one store."

Yun chujiu nodded and asked, "How much liquid capital do you have in your account?"

"I submit the profit every two months, so I still have about five million in my hand. Miss FANGCAO, are you planning to use this money to buy talismans?"

"I'm not buying talismans! I'll lend you another ten million, and you can take this fifteen million to buy groceries." Yun Chujiu said with a smile.

Shopkeeper Pei's eyes widened. He felt that Yun Chujiu was most likely crazy! Was she crazy? ! Every time, the store would only buy two million worth of groceries. The groceries were all cheap and trivial items. Why would she buy so many groceries? ! who was going to buy them?

"Shopkeeper PEI, if you want to stand tall in front of that Zheng, just listen to me. I Promise I'll make you a fortune."

Shopkeeper Pei gritted his teeth and stomped his feet. "Alright! I will listen to you!"

“How long will it take for the goods to enter?”

“No more than eight days.”

“Alright, you can handle this matter yourself. When you return, look for me at the Mo Residence.”

“Yes!”

After Yun Chujiu gave her instructions, she stretched lazily. “Third sister, let’s go. I will bring you to a restaurant for a meal!”

Mo Fangqin thought to herself, a country bumpkin really has a big heart. Putting aside the matter of the grocery store, the Luo family might have already gone to the residence to demand an explanation, yet she still had the mood to go to a restaurant? !

However, after interacting with her for the past few days, Mo Fangqin knew that Yun Chujiu was a man of her word. No one could stop her from doing what she had decided to do, therefore, she could only follow her to the largest restaurant in Feng Li City — Drunken Heaven restaurant.

Hei Shi had intended to wait downstairs, but Yun Chujiu glared at him and had no choice but to follow him to the private room on the second floor.

Yun Chujiu ordered a large table of delicacies, but Hei Shi refused to eat with Yun Chujiu and the others no matter what. Yun chujiu simply asked the waiter to make a table for Hei Shi.

The three of them had just eaten when the door of the private room was pushed open!

“Mo Fangcao, you B * Tch! Hurry up and return the spirit stones that you extorted from me!” Luo Yan said angrily. Behind her were two maids and eight guards.

“If I return the Spirit Stones to you, our debt will be written off?” Yun chujiu glanced at Luo Yan. This fellow actually did not go to the Mo residence to make trouble, but directly came to stop me?
