

The Yun Family's Ninth Child is an Imp! Chapter 2021

“Grandfather, I’m going for a trial. If I bring so many people there, it won’t be as effective as a trial.”. “I’ll just bring Hei Shi and the other six. Besides, I’ll just walk around the edges and won’t encounter any powerful Demonic Beasts.”

Yun chujiu thought, what a joke. Why would I bring a bunch of spies to go for a trial? !

Mo Xiaoting tried to persuade her, but seeing that Yun chujiu insisted, he had no choice but to let her be.

After Yun Chujiu returned, she gave Mo fangqin a few instructions before heading towards fallen Phoenix Forest the next day.

Fallen Phoenix Forest was about 300 li away from Feng Li City, so everyone boarded a flying spirit tool and headed towards Bai Li.

On the Flying Spirit Tool, Hei Shi and the others were staring at Yun chujiu until their hair stood on end.

“Small, miss, what do you have to order?”Hei Shi braced himself to ask.

“Let me see if you have done me wrong. You may not know this, but I have a special gift for calculating. Otherwise, how do you think I knew Luo Shi had an old lover? I just figured it out!” Yun Chujiu was possessed by a fraud, “I don’t know.”.

Hei Shi and the others naturally did not believe it. However, firstly, Yun Chujiu was generous. Secondly, they were afraid of this fellow’s black heart, so how would they dare to have any second thoughts? !

Furthermore, there was still that mysterious person! That person’s spiritual energy was much higher than theirs. Only those who wanted to die would dare to betray this little ancestor.

Yun chujiu saw that these people’s eyes were open and did not feel guilty, then, she said with a smile, “Don’t worry. As long as you follow me obediently, I guarantee that you will all be very awesome in the future. The western continent is nothing. I want you all to be well-known figures in the eastern continent in the future.”

Hei Shi and the others expressed their gratitude to show their loyalty, but they felt that Yun Chujiu’s bragging was too big. Forget about being well-known in the eastern continent, even if they could go to the eastern continent, it would be Amitabha!

Two hours later, the flying spirit tool landed on the periphery of the fallen Phoenix Forest.

Yun Chujiu jumped down from the flying spirit tool. She rolled up her sleeves and said, "When you encounter demonic beasts later, don't make a move. Let me do it. Do You Hear Me? I'm Suffocating!"

The corners of Hei Shi and the others' mouths twitched. It wasn't a good thing. Who would snatch it from you? However, this little ancestor really did not know his limits. You are only at the second level of the spiritual venerable realm, what are you trying to do! ! ? It would be difficult for you to deal with a twenty-sixth level demon beast, let's see if you let us help you then!

An Feng naturally followed them, but he flew his own flying spirit tool and followed behind them at a distance.

Yun chujiu quickly encountered a twenty-sixth level single-horned wind blade violent bull. This fellow smiled and waved at the single-horned wind blade violent bull. "Little baby, you came at the right time. You can have roast beef for lunch!"

The single-horned Windblade ox ran away. It was not afraid of Yun Chujiu, but the six people behind her.

"Oh, you want to run? Stop right there!" Yun chujiu jumped up and struck the single-horned Windblade ox with lightning.

The lightning struck the single-horned Windblade Ox's tail. The single-horned Windblade ox howled in pain. It turned around and threw a few wind blades at Yun Chujiu.

Hei Shi and the others grinned. They didn't know if this little ancestor could dodge it or not. They didn't want to get injured right away!

Obviously, their worries were unnecessary. Yun chujiu leaped up. Not only did she dodge the wind blades, but she also threw a few lightning bolts at the single-horned wind-blade ox's horn.

The Man and the Ox tangled together. Yun Chujiu wanted to train her movement technique, so she didn't use her spiritual power materialization technique, nor did she use talisman. If this fellow used talisman, this single-horned wind-blade ox would have long become beef jerky!
