

The Yun Family's Ninth Child is an Imp! Chapter 2023

Hei Shi and the others were dumbfounded!

Not to mention that the lion and the cat were indistinguishable, the spiritual energy that you materialized was actually a needle?

Oh My God!

Is it because we are lacking in experience, or is this little ancestor's spiritual energy materialization too strange? How did he materialize a needle?

This isn't a joke!

No wonder this little ancestor did not use spiritual energy materialization. The spiritual energy needle that materialized was even inferior to the purple lightning!

This spiritual power needle was only as thick as an embroidery needle. Even if the wind-blade Lion did not dodge, it would be fine. This was simply too weak!

The wind-blade Lion clearly had the same thought. It felt that the human in front of it was simply too weak. It wanted to deal with this broken thing that was materialized? Dream On!

The wind-blade lion rolled its huge eyeballs. Not only did it not dodge, but it pounced on the purple needle instead. It had a plan in its mind. Even if the spiritual energy needle hit its body, it would only scratch the itch. It would be better to take this opportunity to bite Yun Chujiu to death.

Hei Shi and the others saw the wind-blade lion pouncing towards Yun chujiu and immediately exclaimed, "Miss, quickly Dodge!"

They did not expect Yun chujiu to not move at all. She stood in place and looked at the wind-blade lion with a smile.

Hei Shi and the others' heads buzzed. The wind-blade Lion was too close to Yun Chujiu. It was too late for them to act now!

boxn ov el. c o m

Little ancestor, little ancestor, aren't you courting death? ! Could it be that you came to the fallen Phoenix Forest to commit suicide? !

Just as Hei Shi and the others were about to collapse, they heard several explosions mixed with the screams of the wind-blade Lion. Everyone focused their eyes and saw that the wind-blade lion's body was constantly exploding. The wind-blade Lion was rolling on the ground in pain.

Hei Shi and the others felt that their heads were not enough. What was going on?

Did the little ancestor use a talisman?

They did not see her use it. Moreover, if she used a talisman, it would also start to explode from the outside. It was obvious that the wind-blade lion started to explode from the inside. What was going on?

At this moment, Yun Chujiu threw a few more purple spiritual needles at the wind blade lion. As the purple spiritual needles pierced into the wind blade lion's body, the sounds of explosions rang out continuously..

Hei Shi and the others were dumbfounded!

So the spiritual needles could explode?

F * CK, wasn't this too abnormal? !

There was such a materialization technique? This was simply a sharp weapon that pretended to be a pig to eat a tiger!

Although this was a beginner-level materialization technique, its power was even more powerful than an intermediate-level materialization technique.

While Hei Shi and the others were dumbfounded, Yun Chujiu shot out several small purple needles at the eyes of the wind-blade Mad Lion. Following the sound of the explosion, the wind-blade Mad Lion died.

After Yun Chujiu put away the wind-blade Mad Lion's corpse, she curled her lips and said, "This little cat actually doesn't know how to Dodge. TSK TSK, it's really too stupid."

Hei Shi and the others thought to themselves, not to mention the wind-blade lion, even cultivators might not be able to dodge when they saw the spiritual needles you shot out. Who would have thought that this thing would explode? It was too much of a scam!

In the next two days, Yun Chujiu killed a few more demonic beasts. Most of the demonic beasts thought that Yun Chujiu's spiritual needles were very weak and could not dodge at all, so they were easily hit.

Yun Chujiu felt that this was not challenging, so when she encountered a level 30 wind blade mad panther, it first shot a few spiritual energy needles at the big tree next to it.

The Wind Blade Mad Panther could not help but wonder, is this human girl crazy? Why didn't she attack it and instead attacked the tree next to it? Could it be that her eyesight was not good and that she was squinting?

Just as the wild wind-blade leopard was thinking, it heard a few explosions coming from the side. Several large holes were blasted out from the big tree. If it wasn't for this iron-core tree being hard, it would probably have been blown apart.

"Kitten, did you see that? My Little Jiu's thunderbolt needle isn't as simple as it looks, so you have to be careful! Come on, let's hurt each other!" Yun Chujiu said with a smile.

Only one thought flashed through Hei Shi and the others' minds. Are You F * cking crazy? !
