

## The Yun Family's Ninth Child is an Imp! Chapter 2025

Hei Shi and the others saw that not only did the wind blade mad leopard not run away, it even started to eat the roasted meat. They could only sigh at how demonic beasts were demonic beasts. No matter how delicious the roasted meat was, it was still not as important as its life. It was really stupid!

Yun chujiu did not have that much roasted meat to feed the wind blade mad leopard. She directly threw it a raw wind blade mad cow's hind leg, then, she said, "You stay and fight with me. I will provide you with food and drink. Before you leave, I will give you a few pills to stop the bleeding. How about it? This is a good deal!"

The wild wind blade leopard rolled its huge eyes. Anyway, there was food and drink. It could also get the pills to stop the bleeding. Why Not? ! F \* ck!

Seeing that the wild wind blade leopard nodded in agreement, Yun Chujiu nodded with satisfaction. "Since you agree, then we will continue to fight in an hour."

Hei Shi and the others were dumbfounded. Humans and demonic beasts could still be traded? Oh God, such a thing was simply unheard of! This little ancestor was indeed a pervert!

An hour later, Yun Chujiu and the wild wind blade leopard started fighting again.

Six hours later, the miserable wild wind blade leopard collapsed to the ground again. This fellow regretted it! Oh My God! This was not a fight, this was the rhythm of exhausting the leopard to death! SOB, sob, this leopard regretted it!

However, when the aroma of the roasted meat spread again, this guy felt that it was not a big deal. If he was tired, so be it. This way, he could quickly increase his spiritual power.

Therefore, in the next few days, the wild wind-blade leopard kept repeating the cycle of regret and no regret..

Yun Chujiu felt that the wild wind-blade panther was no longer challenging, so she said mercifully, "Kitten, you can go now."

The Wild wind-blade Panther was a little confused. It didn't need to train with it anymore?

Why did it suddenly feel like it was abandoned by the whole world?

The wild wind-blade Panther took the few super-grade blood coagulation pills that Yun chujiu handed to it and left reluctantly.

Yun chujiu shouted behind it, “Hey, Kitten, Why Don’t you be my mount for a few more days!”

Hei Shi and the others felt that the wild wind-blade leopard would definitely leave without looking back. After all, demonic beasts all advocated freedom, so how could they be willing to be a human mount..

Everyone’s thoughts stopped abruptly when they saw the wild wind-blade leopard coming back. Well, not all demonic beasts had integrity. This guy was just trying to eat the shameless ones!

In the next few days, Yun Chujiu rode the wild wind-blade leopard and began to challenge around this area.

Before the beasts fought each other, they would practice the power of the small spiritual needles before they started to fight.

After beating the beasts until they were half dead, they didn’t kill them. Instead, they waited until the beasts recovered their strength before they started the second round of fighting. It was an endless cycle until the beasts felt that it was no longer challenging, only then would they let go of the beast that was tormented so much that it wanted to commit suicide.

Very quickly, all the demonic beasts in this area knew that a freaking pervert riding a leopard had come to the fallen Phoenix Forest! Fire, lightning, and pervert, they all hid from her!

Hence, Yun chujiu tragically discovered that all the demonic beasts in this area had disappeared!

“What’s going on? Where did all the demonic beasts go? Forget it, since there are no more demonic beasts in this area, let’s go deeper in.” Yun chujiu sat on the body of the wild wind blade leopard and said while stroking her chin.

Although Hei Shi and the others couldn’t figure out the thoughts of the demonic beasts, they could still guess some of them. How dare you ask? Those demonic beasts must have fled with their families! ! With your fighting style, not to mention the demonic beasts, even humans would collapse, okay? !
