

The Yun Family's Ninth Child is an Imp! Chapter 2027

Bald Bear?

Hei Shi and the others were both anxious and angry. Dear ancestor, you'd better save your little life first!

Upon hearing this, the violent wind-blade bear was also so angry that it howled in anger. You Little Brat who overestimated yourself, I'll cut you into pieces!

The wind-blade leopard bear once again shot out a few wind blades at Yun Chujiu. Yun chujiu hurriedly dodged them. Although she dodged them, she was still in a very sorry state.

This fellow could not help but sigh. The gap between the levels of spiritual power was indeed huge. No matter how fast one's movement technique was trained, it was still not enough without the assistance of spiritual power!

The Man and the bear fought together, and Yun Chujiu was clearly at a disadvantage.

The wind-blade bear only needed to protect its weak parts, but Yun chujiu had to constantly dodge the wind blades of the wind-blade bear, making her look very miserable.

Hei Shi and the others stomped their feet anxiously, thinking to themselves, “Doesn’t our little ancestor have a talisman seal and some chili dough?”? Why didn’t she use it? When will she stop hiding like this?

Of course, Yun Chujiu knew that using the talisman seal and chili dough would make her life a lot easier. However, those were life-saving methods that she had no choice but to use. Now that it was a trial, she didn’t need to use them if she could.

Seeing that Yun Chujiu was being forced into a sorry state by it, the violent wind-blade bear howled arrogantly, full of provocation.

“Little Bear Bear, do you really think that I can’t Beat You? It seems that I have to release my spiritual beast!”Yun chujiu curled her lips and said.

Hei Shi and the others’spirits were lifted. So this little ancestor could transform into a spiritual beast. It was just that they didn’t know what kind of flying beast she transformed into.

When the violent wind-blade bear heard Yun Chujiu’s words, it also raised its vigilance. What was this Brat’s spiritual beast? From what she said, it seemed to be very powerful. It was better to be careful.

Yun chujiu raised her hand, and a cute little piglet of spiritual power pounced towards the violent wind-blade bear.

Whether it was Hei Shi and the others or the violent wind-blade bear, they were all dumbfounded!

She, what she transformed into was actually a pig? And a Piglet?

What kind of joke was this? !

What kind of attack power could this piglet have? Could it be that it was planning to kill its enemies with cuteness?

The violent wind-blade bear waved its bear paw disdainfully, trying to disperse the spiritual energy piglet. Unexpectedly, the spiritual energy piglet firmly clung onto his bear paw with its pig trotter and took a bite.

Although the bear paw of the violent wind-blade bear was tough and thick, it was still in pain after being bitten by the piglet. It quickly shook and pulled the piglet, finally breaking it apart.

Hei Shi and the others frowned. Although this spiritual energy piglet still seemed to have a bit of offensive power, once the violent wind-blade bear was prepared, it would be useless to use the wind blades to attack it.

The violent wind-blade bear obviously thought so too. It rolled its eyes in disdain and threw a few wind blades at Yun Chujiu.

Yun chujiu bared her white teeth at the violent wind-blade bear. "Spiritual Piglet No. 1, No. 2... No. 20, attack together!"

Hei Shi and the others' mouths twitched. What was that?

No. 1? No. 2? No. 20?

Stop joking!

This spiritual piglet should be a high-level physical transformation technique. Since it was a high-level physical transformation technique, how could there be two? Not to mention 20!

Then, a scene that they would never forget for the rest of their lives appeared!

F * ck!

They saw an endless stream of spiritual piglets pouncing towards the wind blades. What was even more shocking was that the spiritual piglets actually began to devour the wind blades!

Oh My God!

The figures of the spirit piglets actually became more corporeal. This, this meant that they were actually able to absorb the spirit energy of the wind blades for their own use. This was too inconceivable!
