

The Yun Family's Ninth Child is an Imp! Chapter 2034

These demonic beasts all had some captured demonic beast corpses in their own space. Some of them couldn't help but start eating as well.

Some of them took the lead. The rest of the demonic beasts thought that it was impossible for such a coincidental treasure to appear at this time, so they all began to eat as well.

Alright, the situation that was originally waiting for them turned into a group feast in an instant.

Some of the beasts stared at Yun Chujiu. This little ant must be delicious. Why not eat her!

Just as the beasts were about to take action, they heard Yun Chujiu say with a smile, "If any of you dare to attack me, I will pour water into it. The treasure you want won't like water, right?"

As Yun Chujiu said that, she poured a basin of water into an empty space beside her. The temperature of the ground was too high, and the water quickly turned into steam as it splashed onto the ground.

As soon as Yun Chujiu did that, the demonic beasts began to roar at the Restless Demonic Beasts, and the demonic beasts had no choice but to suppress the thought of eating Yun chujiu.

Yun chujiu curled her lips. Do you think that I ran to the front to suffer for no reason. This is a place with good feng shui. Firstly, if a treasure appears, it's easy to get it. Secondly, if it really doesn't work, I'll jump in. Anyway, with the beads of guai Cao and the fire repelling bead, I'm not afraid even if there's lava in there.

Just as Yun Chujiu was thinking proudly, lie Yan suddenly burst into flames in the deep pit. A raging fire actually rose up!

This fellow was frightened. Fortunately, she had already activated the fire repelling bead. Otherwise, she would have been burned to ashes.

Then, she looked at the demonic birds and demonic beasts who were all staring at the flames excitedly. Their eyes were filled with greed. Yun chujiu could not help but be puzzled. She did not see anything strange about the flames? Was there a need to be so excited?

Could it be that there was a treasure in these flames? Would the treasure appear after the flames were extinguished?

Yun chujiu rolled her eyes. If the treasure appeared, she would definitely not be able to snatch it away from these demonic beasts unless she found another way!

This fellow gritted his teeth. Since he had the fire repelling pearl on him, he was not afraid of the flames. Since that was the case, he would go into the flames. That way, he would be able to gain the upper hand. Yes, that was the plan!

Thinking of this, Yun Chujiu summoned the chopping board and jumped into the deep pit.

The demonic beasts were stunned. There was indeed something wrong with this little girl's head. She actually jumped into the fire to commit suicide!

Yun chujiu stood on the chopping board and kept falling. Finally, she landed at the bottom of the deep pit.

Xiao Heiniao couldn't wait to get out of the spiritual beast bag, so Yun chujiu let it out.

"Master, it's that bead! hahaha! I was right! There really is an ancient Phoenix's nirvana bead here!" Xiao Heiniao said excitedly.

Yun chujiu was so angry that she grabbed its short wings: "You Idiot! You were wrong! If this wasn't some bullshit nirvana pearl, wouldn't I have risked my life for Nothing?!"

Xiao Heiniao blinked her eyes guiltily: “Master, I, I didn’t guess wrong? ! Let’s settle the score in the future, wait until I swallow that Pearl first.”

Although Yun Chujiu wished that she could give Xiao Heiniao a good beating, she also knew that now was not the time to settle the score, so she asked, “What exactly is that Bullsh * t nirvana bead? What is its use?”

“Master, when an adult phoenix is bathing in fire for nirvana, the surrounding soil will be roasted by the Nirvana fire. The soil will absorb part of the Nirvana Qi, and after tens of thousands of years of absorbing the spiritual Qi, it will produce a nirvana bead.”Xiao Heiniao said excitedly.

After the fire-type demon beast swallowed the Nirvana Pearl, it would be extremely beneficial to its cultivation. Even if it was in a place without spiritual qi, it could still rely on the fire spiritual Qi in the Nirvana Pearl to cultivate.
