

The Yun Family's Ninth Child is an Imp! Chapter 2059

A thought flashed through Mo Xiaoting's mind. Luckily, he did not marry Fang Cao to the Zhao family. Otherwise, based on her personality, she might not be able to retaliate against the Mo family.

Yun Chujiu and Mo Xiaoting chatted for a while longer before turning around and leaving.

Mo Xiaoting immediately asked housekeeper he to call Mo Cheng into the study room, "Second brother, you better keep that matter to yourself. If you dare to say anything, don't blame me for being a ruthless father."

After speaking, Mo Xiaoting glared coldly at Mo Cheng.

"Yes, yes, father. Don't worry, I will keep my mouth shut," Mo Cheng had a feeling that if he didn't agree, Mo Xiaoting would kill him right now.

Mo Xiaoting's expression softened a little, "The matter with Luo Shi will be over soon. It's time for you to pull yourself together. I think that Qiu Shi is very responsible. If I can give you another man and woman, then you should help her get promoted."

Mo Cheng did not dare to object and quickly agreed. After the incident with Luo Shi, he still had lingering fear towards shrewd women. He felt that Auntie Qiu was the most reliable.

On the other side, Yun Chujiu returned to hear He Xuan and was in a daze. She couldn't go to the trial for the time being, so what should she do?

As she thought about it, her heart skipped a beat. She had never learned the high-level physical transformation technique, so she might as well use this time to study it.

Yun chujiu called Hei Shi over. "Hei Shi, don't go anywhere this afternoon. Explain the high-level physical transformation technique to me."

Hei Shi looked confused and at a loss. "Miss, this high-level physical transformation technique can not be learned in one afternoon, and I don't know how to explain it. Why Don't you ask the master to find a teacher who specializes in teaching you the physical transformation technique!"

"Aren't you going to pay for it? There's no need to talk so much nonsense. Hurry up and have lunch. Then come over and explain it to me." Yun Chujiu glared at him.

Hei Shi shrunk his neck and didn't dare to speak. However, he didn't think much of it. He felt that Yun Chujiu was just acting out. How could he learn the high-level materialization technique with just a few words?

Forget it. Since the little ancestor would not be able to learn it by then, he would naturally get the master to invite a teacher for her.

That afternoon, Hei Shi came to hear he Xuan Ramble on about a few key points of a high-level physical transformation technique.

Yun chujju blinked her eyes and asked a few more questions. Then, she said, "Alright, I've learned enough. You can go back now."

Hei Shi was dumbfounded!

What the hell?

He learned it in less than four hours?

Impossible!

Perhaps this little ancestor didn't understand at all, so he just gave up on learning it. It must be the case.

After Hei Shi left, Yun chujiu began to study the high-level physical transformation technique. In fact, the low-level, middle-level, and high-level physical transformation techniques were similar. The general principle was the same, but there were some slight differences.

Yun chujiu pondered for a while in the house, and then went to the courtyard to practice. Anyway, Mo Fangqin went to Aunty Qiu's place, and Qing Liu and Qing Zhi were also sent out by her.

After several experiments, she finally succeeded!

However, Yun Chujiu was a little confused as she looked at the piglets jumping around happily.

Didn't they say that the high-level physical transformation technique could only transform into one spiritual beast? Why did she create a group of them?

Yun chujiu looked at them carefully again. Other than being more lively and smarter, these piglets did not seem to be much different from the ones created by the middle-level physical transformation technique.

Yun chujiu could not help but feel a little discouraged. Initially, she thought that the high-level physical transformation technique could be very awesome. She did not expect that there was not much improvement.
