

The Yun Family's Ninth Child is an Imp! Chapter 2070

Hei Shi and the others were dumbfounded when they saw the four dumb cuteness released by Yun Chujiu.

These were spirit pets released by the little ancestor? Which corner did she pick up these spirit pets from? Why were they all so weak!

That fat ball should be a fire-breathing crow, right? It was said that fire-breathing crows could only be found in some low-grade continents. The highest level was only level five. They couldn't be any weaker!

That Xiao Hei rat should be a tailless earth-drilling mouse. It was also a demonic beast that only existed in low-level continents.

That red fox should be the flaming twin-tailed fox. It was also an extremely weak low-level demonic beast.

No matter what, the three above could be considered to have a little bit of combat strength. What the hell was that Xiao Mogu? ! Although some demonic plants were also considered powerful, that Xiao Mogu was only the size of an egg. How powerful could it be? ! !

To sum it up, the little ancestor's spiritual pets were all scammers!

Hei Shi and the others felt that these scammers would probably die in less than 15 minutes. However, this was also good. It was just enough for the little ancestor to find powerful spiritual pets to raise again.

The people of the Zhao family did not put the four dumb cubs in their eyes. What was the use of such weak spiritual pets? ! Letting them out would be courting death!

The four silly cubs had not come out to play for a long time. Of course, they were working very hard. Thus, the people of the Zhao family paid the price for their carelessness once again.

Xiao Hei burrowed into the ground and began to launch a sneak attack.

Some people of the Zhao family would realize that their feet had sunk into the ground as they fought. They wanted to pull them out but were held back by a huge force. They could not break free for a while.

Hei Shi and the others naturally would not let go of such an opportunity. They would take the opportunity to end the other party's life.

Xiao Hong did not stay idle. She roared to distract the members of the Zhao family while attacking with fireballs.

Although Xiao Mogu did not move, the mycelium had entangled two members of the Zhao family. Although the two of them used knives and flames to cut and burn, they could not break free. They gradually lost their breath.

Compared to the other three silly and cute ones, Xiao Heiniaoyao was a little cowardly.

Originally, this fellow should have the greatest advantage because it could attack from the air. However, this fellow was too fat now. Even after flapping its short wings for a long time, it could only fly up to the height of a person. Moreover, it was flying unsteadily, it was almost killed by Zhao Qianhua's slap.

Fortunately, this fellow used the curse in time, causing Zhao Qianhua to stagger and not get injured.

Yun chujiao saw that this fellow was really too deceitful, so she could only put it back into her spirit beast pouch and not let it continue to embarrass itself.

With the help of the three silly cuties, Yun chujiao's side began to gradually gain the upper hand.

Zhao Qianhua and the others had the intention to retreat. It was not too late for a gentleman to take revenge. It was not too late to deal with them when they returned to the Zhao family and brought reinforcements.

Yun chujiu was very shrewd. Of course, she would not let them escape. She shouted loudly, "Little Lunatic, don't let any of them go. Kill them all!"

An Feng was secretly laughing. He felt that Xiao Heiniaio was really too stupid. Such a thing was still the Black Phoenix? Don't joke around!

An Feng immediately joined the battle after hearing Yun Chujiu's words.

An Feng's spiritual power was simply crushing these people. Very soon, not a single member of the Zhao family was left alive.

Yun Chujiu had Hei Shi and the others search for the valuable items on the Zhao family's bodies. Then, she released Xiao Heiniaio, who had a look of despair on his face. "Xiao Hei, I'll leave the matter of destroying the corpses to you."

Xiao Heiniaio finally found some value in himself. He flapped his two short wings with great effort and burned the bodies of the Zhao family members into ashes.
