

The Yun Family's Ninth Child is an Imp! Chapter 2074

Other than a portion of the Zhao family, more than half of the Zhao family members were recruited. A large portion of them were talisman masters who relied on the Zhao family to earn a living.

Now that they had been incited by Yun Chujiu, they immediately lost the will to resist. That's right, they were just trying to earn a living. wasn't it the same whether they worked for the Zhao family or the Mo Family? !

Now, it seemed that the Zhao family would definitely not be able to defeat the Mo family. Since that was the case, they might as well surrender!

Therefore, many people withdrew from the battle and stood by the side to observe.

The Zhao family's strength was inferior to the Mo family to begin with. Once these people withdrew, their strength was greatly weakened and they no longer had the ability to resist.

Second Elder Zhao's eyes were already red with killing intent. Seeing Yun chujiu chattering away, he immediately pounced towards Yun Chujiu and attacked Yun chujiu with his spiritual power.

Yun chujiu dodged the attack easily and chuckled, "You want to get even with me? Dream On! Hei Shi, kill him for me."

Hei Shi and the other three had been protecting Yun chujiu all this while. When they heard this, they surrounded second elder Zhao and started to fight.

Soon, second elder Zhao was knocked to the ground and could not resist anymore.

Yun chujiu squatted beside him, she said faintly, "Second elder Zhao, seeing that you're dying, I'll tell you the truth! "I killed Zhao Lizhi and your son. Aren't you surprised? "Aren't you surprised? "The moment you set your mind on me, it was destined that your Zhao family would no longer have a need to exist. So you can go down and continue to collude with the Luo Family!"

Elder Zhao er was filled with hatred and fear. Never in his wildest dreams did he expect that just because he wanted to scheme against a little girl, in the end, he would actually put the entire Zhao family at risk.

Elder Zhao Er's thoughts came to a sudden stop because Yun chujiu had killed him with a rolling pin. He knew that there was no need for too many people to live.

Then, Hei Shi and the others saw a scene that destroyed their worldview. They saw Yun Chujiu take elder Zhao er's storage ring off and put it into her own storage ring naturally.

They immediately thought of the unsolved case. The Luo family's patriarch's storage ring must have been stolen by this little ancestor!

Four hours later, the battle ended with the Mo family's complete victory.

Mo Xiaoting had gained some experience this time. After killing the Zhao family's patriarch, he put away his storage ring. This way, he didn't let a certain someone, who had been eyeing him like a tiger, succeed.

However, with Xiao Hei's help, a certain someone managed to make a fortune from the storage ring.

Mo Xiaoting was in a good mood. Not only did he vent his anger, but he also took over the Zhao family's talisman business. With that, the Mo family became the richest family in the western continent.

However, a problem soon arose.

Mo Xiaoting was ambitious and prepared to continue his efforts. He wanted to return to the eastern continent as soon as possible.

Mo Peng and the others were already satisfied with their current situation. There was no need for them to think about returning to the eastern continent. Being a rich man on the western continent was much better than looking down on others on the eastern continent.

Mo Xiaoting hated the fact that he had failed to live up to his expectations. Without a strong foundation, the money would change hands in an instant. So, he angrily scolded Mo Peng and the others.

Although Mo Peng and the others admitted their mistake verbally, they did not think much of it. After all, they did not think that the Mo family would be able to return to the eastern continent. So, they continued to enjoy themselves.
