

## The Yun Family's Ninth Child is an Imp! Chapter 2075

Yun chujiu looked at the Mo family coldly. She felt that the Mo family had perfectly translated a sentence: a MUD can not help a wall!

No Matter How Smart Mo Xiaoting was, with these idiots dragging him down, he would be finished sooner or later.

Although Mo Xiaoting did not want to admit it, he knew that other than Yun Chujiu, the Mo family did not have a suitable heir. However, he was not willing to let Yun Chujiu become the next head of the family, so he could only hope that his grandson would get married as soon as possible, after that, he would give birth to a suitable heir.

As a result, the Mo family held a few weddings in succession. Their only goal was to spread the seeds as soon as possible.

Yun Chujiu was well aware of Mo Xiaoting's plans, so she couldn't be bothered with him. After all, it was still early to the fourth generation of the Mo family. This period of time was enough for her to use the Mo family as a springboard to head to the eastern continent.

During this period of time, Yun Chujiu once again went to the Thousand Feet Mountain to train. However, even though the spiritual energy in her dantian had skyrocketed, it still did not attract any heavenly lightning, so she was unable to advance.

Yun chujiu was very worried. Although others trained slowly, as long as they had enough spiritual energy, they would be able to break through. On the other hand, her breakthrough completely depended on whether the damn heavenly lightning struck her or not.

This fellow was bored to death, so she could only ask Hei Shi and the others to help her collect some interesting storybooks.

However, the immortal essence continent didn't have the type of storybooks that Yun Chujiu liked. Other than the storybooks of some scholars and the others, there were also some handwritten notes that recorded strange things.

Yun chujiu couldn't help but sigh at the lack of spiritual life of the people of the immortal essence continent. They didn't even have such good-looking storybooks. When she was free, she could write a few books to benefit everyone.

On this day, when Yun Chujiu flipped through a handbook, she realized that there was an interesting place recorded in it.

In the southernmost part of the Western continent, there was a thunder calamity valley. The reason why it was named was because there were frequent flashes of lightning and thunder. Occasionally, purple heavenly lightning would descend, so few humans and demon beasts entered.

It was rumored that there were many precious spirit herbs in it. Therefore, even though it was very dangerous, there were still people who took the risk to go there. However, less than one-in-a-thousand people managed to make it out alive. It was extremely dangerous.

Thunder Disaster Valley?

Yun Chujiu felt that this place was tailor-made for her. So, she immediately went to look for Mo Xiaoting in high spirits.

“Grandfather, I want to go out and train.”

Mo Xiaoting had been busy urging his grandchildren to hurry up and give birth, so he did not ask too much. He thought that Yun Chujiu was going to thousand feet mountain to train, so he agreed without hesitation.

Yun Chujiu immediately left Feng Li City with Hei Shi and the others and an Feng.

Hei Shi and the others also thought that Yun Chujiu was going to thousand feet mountain, but they did not expect Yun Chujiu to say, “Our destination this time is the southernmost region. Let’s go.”

Hei Shi and the others were on the verge of breaking down. Little ancestor, there was no one like you! There were so many training grounds around, why did you have to go so far away to train? Besides, the environment in the southernmost region was extremely harsh. It was really asking for trouble.

“Miss, it is said that there is a volcano that erupts all year round by the southernmost region, so the temperature is extremely high. The people there have darker skin tones than ours. Can’t we change the training grounds?” Hei Shi probed.

“Of course not. There is no Thunder Calamity Valley in other places.” Yun Chujiu said as she handed the letter to Hei Shi.

After seeing the introduction of the Thunder Calamity Valley, Hei Shi’s six people felt even more devastated. Oh My God, you are not going to the trial, you are going to die!
