

The Yun Family's Ninth Child is an Imp! Chapter 2083

The More Yun Chujiu ran inside, the more the lightning struck her, as if it was trying to stop her from entering.

Yun Chujiu could not help but twitch her lips. Want to stop me? Dream On!

This guy ran fiercely. She found that the deeper she went, the hotter it got. If she did not have the beads of the guai Cao, she might not even be able to breathe.

Finally, she could see the end of the valley from afar. It was a cliff that was as smooth as a mirror.

Although the Lightning was very dense, it didn't strike the cliff. It seemed that the purpose of the Lightning was to prevent people from approaching the cliff. Then, what secrets were hidden inside the cliff?

Yun Chujiu's heart was pounding. A few words had appeared in her mind: Divine Beast, Divine Weapon, Treasure Map, handsome man..

Xiao Heiniaio pursed her lips. The first three were okay, but what the hell was the last one? Handsome? If he was really handsome, the gigolo would definitely be jealous.

At this moment, the heavenly lightning that fell from the sky was even denser, and almost all of them were purple. The purpose was obvious, and that was to stop Yun chujiu from approaching the stone wall.

Yun chujiu did not take the Thunder seriously at all. She hopped to the stone wall and felt the heat wave. She was even more puzzled. Why was the stone wall so hot? Could it be a volcano? Wasn't the volcano hundreds of kilometers away from here?

Yun chujiu carefully observed the stone wall and did not find anything unusual. She used a rolling pin to knock it but did not find anything empty. It was really strange.

Just as Yun Chujiu was feeling puzzled, she noticed a small red dot in a corner of the stone wall. It might have sensed yun chujiu's gaze, and that small red dot began to scuttle about inside the stone wall. Xiao Hong was stunned.

What the hell was this thing?

Was it a demon beast or a spiritual plant?

No matter what it was, she had to let it out first. This thing was probably afraid of heavenly lightning and would not dare to hurt her even if she let it out.

Yun chujiu raised the rolling pin and started to smash the stone wall. The Heavenly Lightning was clearly anxious, and it kept hacking at Yun Chujiu, wishing that it could kill this guy. However, it was useless, so Yun Chujiu smashed it even more happily.

She didn't know what material this cliff was made of, but after Yun chujiu smashed it for a long time, she only managed to create a tiny crack.

The guy blinked his eyes and retreated some distance away. Then, he took out the superior-grade sudden crack talisman from his storage ring and threw it at the cliff.

With the sound of cracking, cracks began to appear on the cliff, and some rocks began to fall off.

Yun chujiu couldn't help but feel proud. "Little guy, no matter how strong you are, I can still blow you up."

Finally, after using up two sacks of the superior-grade sudden crack talisman, a small hole appeared on the cliff.

Yun Chujiu moved closer to the hole and said slyly, "Little Thing, you've been trapped here for a long time, right? "Don't you want to go out and see the beautiful world? "I'm the kindest person. I'm here to rescue you. Come, follow me. I'll definitely treat you well."

The four in the spiritual beast bag looked at each other. The black-hearted master's old trick had started again. No one knew what was the unlucky thing this time.

Xiao Hong did not move when she heard Yun Chujiu's words. Yun chujiu blinked her eyes and continued to say, "There are already holes here. If you don't follow me, when the heavenly lightning strikes, you will be dead!"

Xiao Hong still did not respond. Yun Chujiu was furious!

"Damn it, don't do it the hard way. If you don't come out, I will blow up the entire cliff wall. Anyway, I still have dozens of sacks of burst talismans!"
