

## The Yun Family's Ninth Child is an Imp! Chapter 2096

The guest followed the host. Naturally, Mo Xiaoting couldn't say much, so he agreed after a few polite words.

Mo Xiaoan exchanged a few more pleasantries before calling over an old woman, "Manager Xie, take brother Xiaoting and the girl Fang Cao to the guest house to rest. Don't neglect them, otherwise, they will be severely punished."

"Yes, Master."

Manager Xie brought Mo Xiaoting and Yun Chujiu to the guest house. There were differences between men and women, so Mo Xiaoting and Yun Chujiu naturally wouldn't be arranged to stay in the same courtyard. Mo Xiaoting stayed in the Wind Pavilion, Yun Chujiu stayed in the Broken Moon Pavilion next door.

Yun Chujiu couldn't help but curse in her heart. The name of the courtyard was quite elegant, but it was a pity that his heart was really dirty.

This fellow was a little excited in his heart. Feng Li City's Mo family's old residence was already tired of playing with it. This Mo family must have a lot of interesting white lotus flowers and dregs. Just thinking about it made his blood boil!

A word flashed in the minds of the four dumb cuties at the same time, "Pervert!!"

Other people would rather have less trouble than more trouble. This black-hearted master was really good. She could not wait for the sky to fall down and let her kick him a couple of times. Pervert!

Yun chujiu disapproved of the Silly Cuties' complaints and said smugly, "Your master's declaration is that I will not cause trouble, but I will never be afraid of trouble!"! If anyone provoked me, I will torture them to death!

Just as Yun Chujiu was showing off with the Silly Cuties, two maids came out from the Broken Moon Pavilion to welcome her. Apparently, the higher-ups had given instructions before, so both of them knew Yun Chujiu's identity, while bowing, she said, "Greetings, Miss Fangcao. I Am Chun Xiao and Chun Yue."

Yun chujiu nodded, indicating for the two of them to stop bowing. She didn't say anything or say anything else.

Although Chun Xiao and Chun Yue didn't show it on the surface, they couldn't help but despise her in their hearts. She was indeed a low-class person from the western continent, but she was so stingy. She didn't even know how to give a greeting gift. She was simply unlucky to be sent here to serve her!

Manager Xie twitched his lips when he saw this, "Miss Fangcao, this servant will take my leave now. If you have something to do, just ask Chun Xiao and Chun Yue to look for this servant."

Yun chujiu nodded her head and walked into the pavilion.

After walking for a while, manager Xie spat on the ground. He originally thought that he would receive some money from the grandfather and grandson of Guangshunzhi, but he did not expect them to be so stingy!

Mo Xiaoting was not to blame for this. Since manager Xie was an old woman, he did not want to reward her. He thought that Yun Chujiu would definitely reward him, so he did not say anything.

As for Yun Chujiu, although she had a lot of money, she would only spend it on the edge of a knife. Manager Xie was the kind of person who would not be satisfied no matter how much she fed him, so Yun chujiu naturally would not waste it.

After Yun Chujiu entered the new moon pavilion, she found that this courtyard was quite exquisite. There were many flowers and plants planted in the courtyard, and there was also a swing. It seemed that the new moon pavilion was prepared for women.

“Chun Xiao, Chun Yue, use these spirit stones to buy some rouge powder!”

As Yun Chujiu said this, she transferred 10,000 high-grade spirit stones to Chun Xiao and Chun Yue from her storage ring. The two of them were shocked!

At first, they thought that Miss Fang Cao was an iron rooster who did not give a single cent. They did not expect her to be so generous! Usually, the master would only reward them with a few hundred spirit stones. They did not expect her to reward them so much!

Just as the two of them were about to decline the offer.., they heard Yun chujiu continue, "I did not reward you just now because I was afraid that steward Xie would see it. It is not easy for you as maids. There are masters above and stewards below. You can just keep these spirit stones. If anyone asks, just say that I rewarded you a few hundred spirit stones."
