

## The Yun Family's Ninth Child is an Imp! Chapter 2110

The first elder's face darkened, "Fang Cao, although being competitive is a good thing, honesty is the most important thing. Lying is not something a good kid should do."

Mo Xiaoquan chimed in, "That's right, Fang Cao, how can you refine A Level 10 pill at such a young age?"? Not to mention you, even some alchemists on the eastern continent couldn't do it, let alone an 80% success rate and half a high-quality pill."

Hearing this, Mo Xiaoting also felt that Yun Chujiu was messing around. His face darkened, "Fang Cao, stop messing around! Hurry up and apologize!"

Yun Chujiu had an innocent look, "I really know how to refine level 10 pills. If you don't believe me, I will refine a batch of level 10 pills for you."

Mo Xiaoting was about to reprimand Yun Chujiu when the first elder said, "Alright, since Fang Cao said that she really knows how to refine level 10 pills, then let's refine a level 10 yuan ling pill!"

Mo Xiaoting glared at Yun Chujiu. It was hard to stop now. If the refinement of the grass did not succeed, the first elder would definitely scold her. This little girl was really being ridiculous.

The first elder brought a few people to the alchemy room on the west side. There was a specially purchased Earth fire inside that could be used to refine pills as soon as the switch was turned on.

Yun Chujiu felt that the design of this earth fire was much more advanced than that of the Tian Yuan continent. She randomly took out a clean alchemy furnace from her storage ring and placed it on top of the Earth Fire.

This alchemy furnace was prepared by Yun Chujiu for the Heaven and Earth Heaven and Earth Heaven and Earth Heaven and Earth Heaven Furnace, so she did not recognize it as her master. If she did not recognize it as her master, she would not be able to refine pills. So, she bit her index finger and began to refine the alchemy furnace.

Mo Xiaoting felt a headache coming on. How could an alchemist not have a dedicated alchemy furnace? This person was amazing. She actually refined it on the spot. One look and it was obvious that she was unreliable. If the first elder were to blame her later, it could only be said that she was too young and immature. This herb was really troublesome.

The first elder and the other two had the same thoughts as Mo Xiaoting. Which Alchemist didn't have their own furnace? This little girl was indeed bragging.

Yun Chujiu thought back to the method of refining the origin spirit pill. She wanted to hide her weakness, so she did not adjust the amount of herbs as she usually did. Instead, she began to refine the pill step by step.

The first Elder was an expert. Seeing that Yun Chujiu's portion and steps were correct, he felt a little relieved. Perhaps this little girl really knew how to refine pills?

While Yun Chujiu was refining, although she did not add any medicinal herbs, her spiritual sense had been observing the changes of the medicinal herbs in the pill refining furnace.

Suddenly, Yun chujiu frowned slightly. The Great Elder and the others saw it and guessed in their hearts that this little girl had probably forgotten some of the steps. Although she looked decent, she still lacked maturity!

How could they know that Yun chujiu was not worried about the failure of the pill at this moment. Instead, she realized that the purity of the medicinal herbs provided by the great elder was too good, so the pill success rate might reach 90% , and they were all high-grade., this was not in line with this fellow's intention to hide his true strength. What should she do?

Yun chujiu blinked her eyes and suddenly opened the pill refining furnace's lid. Then, she picked up a section of fallen petals vine and threw it into the pill refining furnace.

The Great Elder was so angry that his white beard was trembling. "Nonsense! Nonsense! The biggest taboo in alchemy is to open the lid of the alchemy furnace halfway. Your alchemy furnace will be ruined for sure! "What you did before was clearly right, but you just had to make things worse. How infuriating!"
