

## The Yun Family's Ninth Child is an Imp! Chapter 2113

Mo Xiaoting comforted himself. No matter what, he had done it just now. So what if he did it this time? It wasn't too embarrassing.

Mo Xiaoquan and Mo Xiaoan relaxed a little. Both Mo Xiaoquan and Mo Xiaoan did not want Yun Chujiu to really enter the first Elder's eyes. The reason was obvious. If the first elder really personally taught Yun Chujiu how to refine pills, what would the others think? That would make the younger generation of the family appear to be too useless and incompetent!

The first elder did not have many thoughts. He only wanted to verify whether Yun Chujiu had the talent to refine pills. As for whether or not he wanted to teach her how to refine pills, that was not something he had to consider now.

After fifteen minutes, the medicinal fragrance began to spread out from the pill furnace, covering up the burning smell at the beginning.

Everyone was puzzled. It was clearly the burning smell from before. How could the medicinal fragrance still come out?

After a while, Yun Chujiu finished the pill refinement. She sighed and said, "I did not control the fire well before. I reckon that the pill success rate and quality won't be too good."

“Fang Cao Girl, open the lid of the pill refining furnace first.”The Great Elder had learned his lesson this time. It was better not to make a conclusion for now. If he was slapped in the face again, there would be no place to put his old face.

Yun chujiu nodded and obediently opened the lid of the pill refining furnace. Then, she heard a few gasps.

“How, how is this possible? Didn’t you just refine it into paste? Why is there still an 80% success rate? Moreover, there are three high-grade pills!”Mo Xiaoran asked in disbelief.

Not to mention him, even the great elder was puzzled. According to common sense, if the fire was not properly controlled at the beginning, then it would be pretty good if this cauldron of pills could achieve a 60% success rate, not to mention such a high-grade pill.., how did this little girl do it?

The great elder directly asked the question. Yun chujiu blinked her eyes, “Great Elder, what you said is too profound. I don’t really understand. I refined it based on intuition.”

The Great Elder’s heart shook. Intuition? Could it be that this little girl was born to be an alchemist? Speaking of which, if it wasn’t for her great talent in alchemy, a little girl from a low-level continent like her would never be able to reach the level of a tenth rank alchemist no matter what.

Although many thoughts surged in the Great Elder’s heart for a moment, there was no change on his face, he praised, “It seems that Fang Cao isn’t bluffing. She is indeed a level 10 alchemist. As expected of our Mo clan’s blood and bone. Tian Zi is indeed extraordinary.”

The Great Elder's heart moved when he said this. Tian Zi? This little girl heard that she had a heavenly thunder spirit root. That was right. It was probably because she had a heavenly thunder spirit root that she had a certain talent in alchemy.

However, when he remembered that Yun Chujiu had a heavenly thunder spirit root, the Grand Elder's thoughts became a little more complicated. The Heavenly Thunder Spirit Root was something that the Tian Dao could not tolerate. Sooner or later, it would be wiped out by the Tian Dao. What a pity.

Yun chujiu humbly said a few words. She tactfully did not mention the words of letting the grand elder teach her alchemy. There were some things that could not be rushed. Take your time. There was no rush.

The great elder encouraged Yun chujiu a few more words, then, for the first time, he took out an alchemy furnace and said to Yun chujiu, "Fang Cao Girl, I saw that the alchemy furnace you used just now was too low-grade. This taotie pattern alchemy furnace was used by me in the past. You can take it and use it."

"Thank you, Great Great Master! This is really great. In the future, when I see an alchemy furnace, it will be as if I heard your teachings with my own ears. I will definitely continue to work hard," Yun Chujiu said with a face full of gratitude.
