

The Yun Family's Ninth Child is an Imp! Chapter 2115

"Father, could she be the one who planned the meeting gift? It Can't be, right? Where did a little girl like her get the guts? If Xiao an knew about it, he would definitely not let her off easily." Mo Xiaoquan said in disapproval.

The first elder could not help but sigh. "Look, even when I said that it was her who did it, you didn't believe it. Do you think Xiao an would think that it was her who did it? "This little girl is bold and careful. If it was a boy, we could really nurture him. Unfortunately, it's a girl, and she has a heavenly thunder spirit root. We can only give up."

"Father, even if the meeting gift was designed by her, it's just a small trick. How is it worthy of your praise?"

"If the meeting gift is a small trick, then what she said at Junkun's wedding banquet shows that this little girl has a world within her!"! Moreover, she also has the talent of alchemy and business. She is really a good seedling. Unfortunately, unfortunately, she is not a boy and she has the Heavenly Thunder Spirit Root that the Heavenly Dao does not allow. "The great elder shook his head regretfully.

However, Mo Xiaoquan felt that the great elder was exaggerating a little. She is just a slightly smarter little girl. She is not as amazing as the great elder said. Fortunately, she is a little girl..." Otherwise, she might even threaten Jun Kun's position.

Yun Chujiu, who was being discussed by the two, had just returned to the fifth house of the Mo family. She was going to visit the second house of the Mo family after lunch.

Mo Xiaoting was naturally happy. He never thought that Fang Cao would actually know how to refine pills. To be able to refine level 10 pills at such a young age was definitely one of the best in the Western continent. After returning home, he was going to train her well, perhaps, the Mo family would produce a high-level alchemist in the future.

Although Mo Xiaolan did not show it on his face, he was feeling depressed. He originally thought that the first elder was about to die, but he did not expect him to be so energetic and disappointed.

Mo Xiaolan took the time to meet with the fifth elder and explained the situation to him. The fifth elder was also disappointed, but there was nothing he could do. He couldn't possibly send someone to kill the first elder, right?

Besides, he couldn't kill the first elder even if he wanted to. Not only did the first elder have a high level of spiritual energy, but the building was also heavily guarded. There was no chance for him to make a move.

In the afternoon, Mo Xiaolan wasn't in the mood to accompany Mo Xiaoting to the second branch. So, he asked his eldest son, Mo Yongfei, to accompany him.

Yun chujiu couldn't help but wonder why the Mo family had rules when it came to names. For example, Mo Xiaoquan, Mo Xiaoting, Mo Fangjiao, and Mo Fangqin. Why didn't Mo Cheng use the word "Yong" in their names?

This guy couldn't take it anymore. Before Mo Yongfei arrived, he had already asked his question.

Mo Xiaoting's expression was a little unnatural as he explained the situation briefly.

It turned out, when Mo Xiaoting's father was still alive, there was a period when he didn't get along well with the Mo family. But, the Mo family was too powerful, so he didn't dare to do anything. So, when he gave his three grandsons names., ... he erased the word "Yong".

In reality, this was a form of self-deception. The family tree had the word "Yong" on it. On the side of the family, there was Mo Yongpeng, Mo Yongcheng and Mo Yongchang.

The corner of Yun Chujiu's eyes twitched. This great-grandfather was indeed interesting. Unfortunately, he died early and wasn't fated to meet.

After a while, Mo Yongfei arrived. His attitude was quite good. It was likely that Mo Xiaolan had instructed him.

Soon, the three of them arrived at the Mo family's second son.

Although the Mo family's second son had a good attitude, he wasn't as warm as the eldest son. Even when Mo Xiaoting asked to meet the second elder, Mo Xiaofu found an excuse to reject him.

They had already given him their gifts, which were almost the same as the fifth son's. Yun Chujiu had also made a small fortune, so she was in a good mood.
