

The Yun Family's Ninth Child is an Imp! Chapter 2117

After returning to Room 5, Mo Xiaoting called Yun Chujiu into the study room in his courtyard and closed the door, he lowered his voice and said, "Fangcao, why did you offend Fang Zhu of the second wife? Although only room 5 has business relations with us, it's not good to upset the second wife."

"Grandfather, Mo Fangzhu doesn't like me to begin with. She was the one who instigated Mo Fangjiao to target me at the wedding banquet. If I wasn't smart, Mo Fangjiao might have beaten me up!!"
"Besides, grandfather, do you think that even if we fawn over the other branches, they will treat us like human beings?" Yun chujiu sneered.

Although Mo Xiaoting did not think that Yun Chujiu's words were nice, he had to admit that Yun Chujiu's words made sense. Even after the incident with the gifts had passed, the attitude of the family had improved, however, the disdain and contempt in his eyes were not hidden at all. His heart was filled with anxiety.

"Fangcao, even if what you said makes sense, what can we do? Our small arms can't beat our thighs. Let's just hold on for a while longer and go back," mo Xiaoting sighed.

"No, grandfather, we now have a chance. A great opportunity to let the Mo family return to the eastern continent," Yun Chujiu's eyes flashed with a bright light.

Mo Xiaoting was pleasantly surprised, "Fangcao, aren't you trying to coax grandfather? Is there really a way for the Mo family to return to the eastern continent?"

Yun chujiu nodded and peeked through the door. Chun Xiao was following her instructions and was talking to the two maids in the courtyard, she then lowered her voice and said, "Grandfather, if everything goes according to plan, it will be extremely difficult for the Mo family to return to the eastern continent. Firstly, the Mo family doesn't like us and secondly, they want us to work for them in the western continent. So, they won't allow us to join their family. So, we can only take a risk and take a gamble."

Mo Xiaoting nodded his head. Yun Chujiu's words made sense. He could tell that the Mo family had no intention of letting them join their family, "Fangcao, what's the solution? Don't keep us guessing."

Yun chujiu did not answer, but instead asked, "Grandfather, why do you think Mo Xiaoran followed us to the main house? Why didn't he accompany us to the second house in the afternoon?"

Mo Xiaoting was stunned, "Didn't he say that he had something to deal with in the afternoon?"

Yun chujiu smiled, "Grandfather, do you believe him? This is just an excuse. Haven't you noticed that Mo Xiaoran has been preoccupied ever since he returned from the main house?"

Mo Xiaoting did not pay much attention at first, but after hearing what Yun Chujiu said, he thought about it and realized that it was true. When he left, Mo Xiaoran was still talking and laughing, but when he returned, he was obviously much quieter.

“After hearing what you said, it’s true. But, what does this have to do with us? Did We upset him in some way?” Mo Xiaoting still did not understand what Yun Chujiu was trying to say.

“Grandfather, if you look closely, you will realize that Mo Xiaoan’s mood was bad the moment he saw the first elder. What do you think this is about?”

Mo Xiaoting was stunned for a moment before his mouth fell open. He was a wily old fox, so he was well aware of the power struggle between families, he then recalled that Mo Xiaoan had once asked Mo Xiaoquan if there was something wrong with the first elder’s body and immediately understood, “Are you saying that Mo Xiaoan was disappointed when he found out that there was nothing wrong with the first Elder’s body?”
