

The Yun Family's Ninth Child is an Imp! Chapter 2133

After lunch, Yun Chujiu should have stood up and left. However, after sipping a few cups of tea, she asked a few more ambiguous questions, which made the great elder speak with confidence, he did not even think about serving tea to send the guests off.

Mo Xiaoquan was at the side, coughing and winking. However, the great elder acted as if he did not see him. In the end, he said, "Xiaoquan, don't waste your time here. Fang Cao will accompany me."

"That's right, grandfather Xiaoquan. Go and do your thing. I will accompany the great elder and chat with him. I have nothing to do anyway. I still want to have dinner before going back!"

Mo Xiaoquan..

Although Mo Xiaoquan was extremely dissatisfied with the Great Elder's actions, he could not say anything. He turned around and left.

In the evening, Yun Chujiu got her wish and had dinner. Only then did she swagger out of the house.

At this time, the Sun had just set and the sky had already started to darken.

Normally, Yun Chujiu did not bring any guards. The house should have sent two guards to escort her back to the fifth house. However, Mo Xiaoquan was very disgusted with her now. Why would he think of sending guards for her? !

Yun Chujiu did not mind. An Feng had been protecting her in the dark anyway. Moreover, the house was only fifteen minutes away from the fifth house.

Yun chujiu was in a good mood. Although the great elder did not give her a definite answer, it was basically a done deal. The Great Elder would definitely agree.

When the time came, she would use the Mo family as a springboard to fight for a chance to enter a good school or a big sect. Then, she would find a chance to return to the Ye family and find out the inside story of her mother's expulsion back then..

Just as Yun Chujiu was thinking about it, she felt her scalp go numb. subconsciously, she activated all the defensive spirit tools on her body and leaped forward with all her might.

In an instant, a brilliant light flashed, and more than half of the defensive spirit tools on Yun Chujiu's body were shattered. Even so, her heart still felt slightly uncomfortable. It could be seen that the spiritual power of the person who came was extremely terrifying.

At this moment, the sound of a fight could be heard. An Feng, who was following not far away, realized that something was wrong and rushed up to fight with the person who attacked Yun Chujiu.

Yun chujiu looked closely and saw that the person who fought with an Feng was a masked man. She could only tell that it was a man based on his figure, and nothing else could be seen.

The masked man's spiritual power was extremely high, and an Feng was at a complete disadvantage. He would probably die in less than ten moves.

Yun chujiu naturally wouldn't just stand by and watch. At this moment, she couldn't care less. She released the five refined iron puppets and released the spiritual piglets to charge at the masked man.

Seeing Yun Chujiu release the five puppets and the spiritual piglets, the masked man looked at her with contempt. However, after the fight, he couldn't help but be surprised. This refined iron puppet could actually attack on its own? That spiritual piglet could actually devour spiritual power? This darn girl had some skills!

Even so, Yun Chujiu and an Feng were still not a match for the intruders. Yun Chujiu had quite a number of burst talismans in her hands. However, when the two sides engaged in close combat, using talismans was equivalent to injuring one thousand enemies and damaging eight hundred enemies, it was basically useless.

Soon, an Feng and Yun chujiu were both injured. Although it was not fatal, their fighting strength was greatly weakened. If this continued, their lives would be in danger.

Yun chujju used a high-level materialization spell in a moment of desperation. However, she was not confident herself. The high-level materialization piglet was just a little more flexible.

The masked man thought that the spiritual piglet released by Yun Chujju was no different from the previous one. After using spiritual power to attack, he saw that the spiritual piglet's body would fade away soon, so he did not care too much.
