

The Yun Family's Ninth Child is an Imp! Chapter 2138

"Grandfather, I have something important to report to you!" "I went to see Mo Fangcao just now. She told me that she might not have been saved by someone. It might have been a sudden phenomenon, such as the Earth Dragon turning over. That's why the people who came to kill her were scared away."

"She also told me that although she had a heavenly thunder spirit root, she didn't feel that Tian Dao wanted to kill her. Maybe she was also Tian Dao's favorite!" Mo Fangjiao told Yun Chujiu's story.

After Mo Xiaoan and his two sons heard Mo Fangjiao's words, although they didn't quite believe it, they felt that it wasn't impossible. After all, the deep pit was too big. If it was caused by human power, then the person's spiritual power was too terrifying.

The next morning, when Mo Xiaoan saw Mo Xiaoquan and the others, he repeated Mo Fangjiao's words.

When Mo Xiaoquan and the others heard it, they were also skeptical. However, if it wasn't a phenomenon from the sky, who would go and save Mo Fangjiao?

After much discussion, everyone tacitly agreed with Yun Chujiu's words and turned to the more important matter. Which family was jealous of the Mo family's business?

Although Yun Chujiu wasn't present, the content of the discussion between Mo Xiaoquan and the rest wasn't too far off. Therefore, this fellow was leisurely waiting for news in the fifth room.

She felt that no matter which angle the great elder was from, it would probably take at least two to three days before he would want her to go to the main room. Therefore, she just had to wait.

The next night, when Yun Chujiu was sitting cross-legged on the bed and cultivating, she felt an intense pain in her right palm, as if her right hand was being roasted in the fire.

She raised her right hand and saw that the flame in her right palm had actually started to grow bigger, as if it was about to rush out from her palm.

Yun chujiu did not care much and took out a large kitchen knife to cut her right palm.

However, there was no flame coming out from her palm. The burning sensation on her palm was even more unbearable than cutting with a knife. Her entire right arm was starting to feel the burning pain.

Yun chujiu did not know whether it was an illusion or not, but she felt that her right hand was about to smoke!

This fellow could not take it anymore. He took out a bucket of cold water from his storage ring and placed his entire right arm in it.

Gulp, Gulp, the bucket of water boiled very quickly!

Yun Chujiu wanted to cry, but she had no tears. Damn it, my right hand had become so hot!

When the bucket of water boiled, she could only change another bucket of water and repeat the cycle. Fortunately, there was a lot of water in this storage ring. If it was really not possible, she could still get water from the Great Void Mystic Realm.

One bucket after another, she did not know how many buckets she had changed. Yun chujiu finally felt the burning sensation on her right hand begin to weaken, and it slowly returned to normal, as if what had happened before had never happened.

The wound on Yun Chujiu's right hand had long healed. The flame became even more bright red, and it was very eye-catching against Yun Chujiu's snow-white skin.

Yun Chujiu's heart was also big. If an ordinary person encountered such a strange thing, they would definitely not be able to sleep and eat in peace. However, seeing that his hand did not hurt anymore, he was also tired from the torment. He laid on the bed and fell asleep immediately.

What Yun Chujiu did not notice was that the large kitchen knife that she had casually thrown on the table emitted a faint glow, especially the blade. It was cold and sharp, and it did not look like the large kitchen knife that had a gap?

However, in just an instant, the large kitchen knife returned to its original appearance, as if what had just happened was just an illusion.
