

The Yun Family's Ninth Child is an Imp! Chapter 2148

Everyone's attention was immediately attracted by Diao Shaoyan's words. That madam could not help but glare at Diao Shaoyan, "Don't be rude! Hurry up and bow to your elders!"

Diao Shaoyan pursed his lips. In his heart, he did not think much of the Mo family. They were just a small family that had just squeezed into the third-class. What kind of elders were they? !

However, he remembered his purpose and could only pretend to bow to Mo Xiaoquan and old Madam Tian.

The madam who came was the wife of the first brother of the Zhu family, Pan Shi, while Diao Shaoyan was the second son of the Pan family, Zhu Jinghu.

Mo Xiaoquan and Old Madam Tian gave generous gifts for their meeting. Seeing that the gifts were very generous, Diao Shaoyan's attitude became a little better.

After everyone exchanged pleasantries, Mo Fangbing's eyes flickered as she said, "Cousin Jinghu, Have You Seen Sister Fangcao before?"

Diao Shaoyan, who was also Zhu Jinghu, snorted coldly. "Cousin Fangbing, I didn't expect this trash to be your cousin. Last time in Thunder City, she fought with me for the courtyard, but in the end, she still obediently gave the courtyard to me. Stinky girl, I thought you died in Thunder Disaster Valley. I didn't expect you to still be alive."

Yun chujiu looked at him indifferently. "Young master Zhu, we are all relatives. It's not good for you to hurt people, right?"

"Relatives? HMPH! Just Your Mo family..."

"Jinghu! Don't Be Rude!" Pan Shi was afraid that Zhu Jinghu would say something inappropriate, so she quickly stopped him.

Zhu Jinghu glared at Yun Chujiu and didn't say anything else.

Mo Xiaoquan didn't feel dissatisfied with Zhu Jinghu when he saw the situation. Instead, he felt that it was all Yun Chujiu's fault, and he was even more displeased with Yun Chujiu. However, due to his embarrassment, he directly kicked her out, so he could only give old madam Tian a look.

Old Madam Tian smiled and said, "Fangcao Girl, why didn't you go to your eldest great-grandfather's courtyard today?"

"Grandmother Tian, I like a lively crowd the most. There are guests at home today, so I wanted to join in the fun. You Don't want to kick me out, do you?" Yun Chujiu said with a smile.

Old Madam Tian's face stiffened. "What are you talking about, little girl? Why would I Chase You Away? I'm just afraid that your great-grandfather will miss you."

"Grandmother Tian, don't worry. The great-grandfather happened to have something to do this morning. I'll go see him in the afternoon." Little Fellow, you want to chase me away? No Way!

Old Madam Tian gave Mo Xiaoquan a look. What she meant was that this fellow's skin was too thick and he couldn't be chased away!

The Pan family was very shrewd. When she saw the situation, she could guess some clues and couldn't help but feel disdain in her heart. A third-class family was just unrated and didn't have any rules. It was better to complete the matter and leave this place as soon as possible.

"Uncle, Auntie, to be honest, I came here for two things. The first thing was that Jing Hu's wife passed away half a year ago, so I planned to help him look for a girl to be his second wife. If the Mo family had a suitable girl, and Jing Hu happened to like her, then we would settle the marriage.

The second thing was that my mother-in-law's health had not been very good. It was not easy to get a famous doctor to treat her, but she needed the seven leaf hollow grass as a medicinal primer. Jing Hu was filial and once went to the Lightning Tribulation Valley to look for it, but unfortunately, he did not find it.

I also found out by chance that the great elder of your residence had once happened to obtain a seven leaf hollow grass by chance. I wonder if he still has it?

If he does, our Zhu family is willing to pay a high price to purchase it. If he doesn't have it, please tell me where he is going."Lady Pan explained her purpose for coming. Although her words were rather polite, her attitude was high and mighty.

Lady Pan's words clearly carried a sense of coercion. She was determined to obtain the seven leaf hollow grass. If the Mo family didn't hand it over, she would be putting pressure on them.
