

## The Yun Family's Ninth Child is an Imp! Chapter 2155

The Great Elder was stunned for a moment before he laughed out loud. He took out a jade box from his storage ring. There was a stalk of medicinal herb inside. From its appearance, it looked exactly the same as the seven-leaf hollow grass, except that one of its leaves had been torn off.

Yun chujiu clapped her hands. "Looks like this is the seven-leaf reed. That's great! This is flawless! Great Elder, you weren't at the scene at that time. Although that Pan's words were polite, that high and mighty attitude was simply too hateful!

Also, that Zhu Jinghu didn't even take our Mo family seriously. Bah! Wasn't he just reincarnated into a good reincarnation? What's so great about it! Sooner or later, our Mo family will definitely surpass their Zhu Family!"

The great elder frowned. When Mo Xiaoquan told him about it, he did not mention these things. Now that he heard Yun chujiu's "Truthful" description, he naturally felt very uncomfortable. Although the Zhu family was a second-class family, Zhu Jinghu was, after all, a junior. He actually dared to be so presumptuous. He was really arrogant.

"Alright, I will handle this matter. Have you learned the disaster-breaking pill that I taught you a few days ago?" The disaster-breaking pill was a level-11 medicinal pill. The great elder had just taught Yun chujiu the refining method a few days ago.

"I went back and tried it a few times. Although I was able to successfully refine it, the success rate of the pill was very low. It was basically 30-40%. Therefore, I still need to practice for a period of time." Yun Chujiu, this fellow, decided to hide her foolishness to the end, that was why she said that on purpose. In fact, this fellow had already known how to refine the disaster-breaking pill long ago.

“What? 30-40% success rate of the pill?”The great elder suddenly raised his voice.

Yun Chujiu’s heart sank. It was over! She had hidden herself too much. If she had known earlier, she would have said 60% to 70% . She did not know if it was still too late to fill in the blanks.

“You can actually have a 30% to 40% success rate in just a few days? Genius! Genius! An ordinary person would need at least half a year to learn a high-level medicinal pill. You actually learned it in less than ten days. You’re really a genius!”The Great Elder’s beard curled up, he was clearly very excited.

Yun chujiu..

How could she be considered a genius like this? Damn, if he had known this would happen, he would have said that he had a pill success rate of 10-20% . A genius was indeed a genius. Even if he was hiding his abilities, he was still so outstanding. There was really no other way.

The Great Elder said a few more encouraging words. Then, the two of them began to discuss some difficult questions regarding pill refinement. The atmosphere was very harmonious.

At this moment, Mo Xiaoquan asked to see him.

After the guards passed the message, Mo Xiaoquan walked in. When he saw Yun Chujiu who came over to pay her respects, he did not have a good expression on his face. Even his own son had to pass the message when he came in, but this little girl who came out of five clothes could come in directly. He did not know what his father was thinking.

“Father, Madam Pan is urging me through Yonghui’s wife again. What exactly is your opinion?” Mo Xiaoquan felt that the great elder might be old and always cautious when handling matters. This was a great opportunity to curry favor with the Zhu family, it was really hard to understand why he had not made a decision.

“Xiaoquan, the herb in father’s hand is not a seven-leaf hollow grass but a seven-leaf reed. The Zhu family’s matter can only be dropped.”

“What? Father, what did you say? Didn’t you tell me that it was a seven-leaf hollow grass?” Mo Xiaoquan said in disbelief.

The Great Elder took out the jade box, he handed it to Mo Xiaoquan. “Take a look for yourself. This seven-leaf reed and the seven-leaf hollow grass look very similar on the outside. The only difference is the juice inside the leaves. “It was only later when I flipped through the book that I discovered this. Otherwise, if I really gave it to the Zhu family, it would definitely be a huge mistake.”
