

The Yun Family's Ninth Child is an Imp! Chapter 2179

“Both the Nuwa Stone Academy and the Heaven Punisher Academy are top-tier academies in the immortal Yuan continent. The instructors and elders of the first-tier sects have the same level of spiritual power. “It is said that the NUWA stone academy got its name from the Nuwa Stone, while the Heaven Punisher Academy got its name from the Heaven Punisher Divine Axe...”

“Wait, Sister Fangbing, you said that the Heaven Punisher Academy got its name from the Heaven Punisher Divine Axe. Could it be that the Heaven Punisher Divine Axe is in the Heaven Punisher Academy?” Yun Chujiu was puzzled. Back then in the ancient sword tomb., the four remnant soul overlords said that the Heaven Punisher Divine Axe had appeared in the ancient sword tomb before disappearing. Why would it appear in the Immortal Yuan continent again?

“This, I’m not too sure either. But that’s how the Heaven Punisher Academy got its name.”

“AH, Sister Fangbing, continue. Just pretend that I didn’t ask anything.” Yun Chujiu said with a mischievous smile.

Mo fangbing glared at her, then, she continued, “Although the WA stone academy and the Xingtian Academy are on par in strength, the WA stone academy prefers to recruit disciples from large families while the Xingtian Academy mostly recruits children from small families and commoners.”

Yun chujiu nodded. It turned out that one was a noble school while the other was a commoner school. She didn’t have any prejudice against any of them. Their existence was reasonable, but their level of consumption was different.

“What about heartless sword sect and vast sea sect?” Yun chujie thought to herself. The names of these two sects were quite high and mighty, but she did not know how strong they were.

“Heartless sword sect and vast sea sect are both first-class sects. Although they can’t be compared to super sects like the primordial chaos sect and the murderous origin sect, they are still considered quite good sects in the immortal Yuan continent.

As the name implies, the heartless sword sect is famous for its sword. Although as the level of spiritual power increases, cultivators rely more on spiritual beasts, the heartless sword sect believes that the power of using immortal swords is greater, so the sect pays more attention to sword control techniques.

The vast sea sect is the same as its name. The vast sea sect accepts all rivers, and there are a few mountains within the sect that each have their own emphasis, “I dabble in alchemy, array formations, talismans, and other aspects.” Mo Fangbing spoke with assurance. It was obvious that she had done a lot of homework in advance. She was secretly competing with Yun Chujie in her heart, wanting to take back a city.

How would Yun chujie know of Mo Fangbing’s awkward thoughts? She rubbed her chin and thought for a moment. She definitely could not go to the heartless sword sect. What she wanted to learn was talismans and alchemy, going to the heartless sword sect would be useless.

The remaining three sounded good. Which one should she go to?

“Sister fangbing, when are the recruitment times for these four places? are the four places far apart?”

Mo fangbing burst into laughter. “Not only are the wa stone academy and Xingtian Academy in Tianluo City, but they are also close to each other. The two academies have been fighting for tens of thousands of years, and the recruitment time is the same every time. In a month’s time, they will start to recruit students.

The vast sea sect and the heartless sword sect are thousands of miles away from Tianluo City. It’s only a few hours’ journey. It’s not far, but it’s in the opposite direction. The vast sea sect and the heartless sword sect’s enrollment time is about a month later than that of the WA stone academy and Xingtian Academy. Have you thought about which one you want to apply for?”

Yun Chujiu said with a smile, “I don’t plan to go to the heartless sword sect because I plan to learn alchemy.”. “As for the vast sea sect, although it’s not bad, with our aptitude, we’ll probably be outer sect disciples if we get in, and we might even be odd-job workers. If that’s the case, the time for cultivation is too short, and it’s not worth it.”.

“How about this, we’ll walk around the vicinity of the Wa Stone Academy and Xingtian Academy, and then choose a suitable candidate to apply for the test. “It’ll naturally be best if we can pass the test. Even if we can’t, we can still participate in the vast sea sect’s entrance test. This is called being prepared for anything.”
