## The Yun Family's Ninth Child is an Imp! Chapter 2184

Liu Jinluan was delighted when she saw the change in Ye Bingyu's expression, she continued, "Bingyu,
you also saw it yesterday. That man in red kept calling her 'little sister'. I think the two of them might be
lovers "

Ye Bingyu's expression became even uglier. She recalled the humiliation she had suffered in the psychedelic forest and wished she could kill Yun Chujiu immediately.

However, she suddenly recalled the warning she had received a few days ago. In addition to the fact that Tian Luo City could not use force.., she could only grit her teeth and say, "I won't let that B \* Tch off. It's not good for Tian Luo City to make a move. Once they leave the city, I'll naturally get someone to capture them."

Ye Bingyu planned to capture Yun chujiu and interrogate her backer. If that person was not her backer, then she would kill Yun Chujiu. If he really was her backer, then she would make other plans.

"Bingyu, do you think they are here to apply for the Huoshi Academy or Xingtian Academy?" Liu Jinluan asked suspiciously.

Ye bingyu snorted coldly, "Our Huoshi Academy doesn't accept beggars. They probably can't even afford the tuition fees. "I think they are here to apply for the Xingtian Academy. However, with their talent, they won't be able to get in. When the time comes, I will send people to take action."

"Exactly. The four of them still want to apply for the Huoshi Academy and Sky Punisher Academy? They are simply dreaming. They really overestimate themselves."Liu Jinluan curled her lips and said.
At this moment, Yun Chujiu and the other three were outside the Huoshi Academy to inquire about the situation.
Yun chujiu wanted to keep a low profile, but Xue Wuji, who was attracting the wind, was following beside her.
His red clothes were fluttering in the wind, and he had an unparalleled charisma. However, he did not have a trace of feminine femininity. He was so devilish that people could not take their eyes off him. Whether it was the students of the Huoshi Academy or the people who had applied, all of them had their eyes fixed on Xue Wuji.
If it was an ordinary person, they would have long felt uncomfortable under the attention of so many people. However, Xue Wuji had grown up under the gaze of so many people since he was young. Naturally, he would not take it to heart. He was very attentive in front of Yun Chujiu.
Although this fellow had already treated Yun chujiu as his younger sister after he had been raped by that woman, he was still a standard younger sister slave. He was extremely attentive.

Hence, those women looked at Yun chujiu with a very unkir	d gaze. Their jealous gazes were like knives
as they swooshed towards Yun Chujiu's body.	

Yun chujiu could not help but curse in her heart. If she had known this would happen, she would have asked Wu Ji's head to help the gigolo. But now, not only was she unable to help, she was actually here to draw hatred.

Although Yun Chujiu was surrounded by knives, it did not prevent her from scouting for military information. The students who came in and out of the WA Rock Academy were all wearing expensive clothes, and all of them were full of arrogance.

Yun chujiu did not have much opinion about this. If they had money, they could just dress up. No one could care less. It was understandable for them to be proud. Firstly, they had a superior family background, and secondly, they could be considered as a favored son of heaven if they could enter the WA Stone Academy.

The four of them went outside the Xingtian Academy to check again. Xue Wuji still attracted a lot of attention, and the unlucky Yun chujiu still received a lot of sharp knives.

The students of Xingtian Academy were obviously dressed much worse than those of the Wa Stone Academy. Although the arrogance on their faces was not as obvious as that of the WA stone academy, it was still more or less there.

Yun chujiu was in a dilemma. The scale and situation of the two academies were roughly the same. Which one should she apply for?
If the test time was not the same, she could have tried both sides. But the problem was that the test time of both academies was on the same day. What should she do?
