

The Yun Family's Ninth Child is an Imp! Chapter 2185

Yun chujiu pondered for a long time before deciding to apply for the Heaven Punisher Academy.

Firstly, she had already found out that ye Bingyu and the others had the qualifications to be exempted from the examination of the WA Rock Academy. In order to prevent them from making any small moves, it would be safer to enter the Heaven Punisher Academy.

Secondly, this fellow had always been obsessed with the Heaven Punisher divine axe. He felt that if he entered the Heaven Punisher Academy to study, he might be able to obtain the Heaven Punisher divine axe.

If he had the Heaven Punisher Axe, he would be able to save Meng Yanshou when he met Brother Mermaid again. Furthermore, he would also need the Heaven Punisher Axe to release the nightmare beast that was locked up in the forbidden area of the Tianyuan Academy.

At the thought of this, Yun Chujiu felt some resentment towards the ten-thousand-year-old fire marrow in her hand. If this ten-thousand-year-old fire marrow could be used normally, it could also burn the ten-thousand-year-old mysterious iron chain. It was a pity that this thing was still in its infancy, moreover, it was still in its infancy stage, so it was useless.

“Let’s apply for Xingtian Academy!”Yun chujiu said to Xue Wuji and the other two with a smile.

Xue Wuji asked in puzzlement, "Little Sister Jiu, I think the Wa Stone Academy is not bad. Why did you choose Xingtian Academy?"

Jin Zhi and Mo Fangbing also looked at Yun Chujiu in puzzlement, wanting to hear her reason.

"Most of the students of the WA Stone Academy have a deep background. If we provoke them, it will definitely hinder our studies. Therefore, Xingtian Academy is the Safer Choice," Yun Chujiu said with a straight face.

Mo Fangbing did not suspect him, but Xue Wuji and Jin Zhi's eyes twitched. This fellow was definitely lying. She was never afraid of trouble. Why would she give up on the WA stone academy for such a reason?

However, they did not care about which academy they entered. In any case, they would just follow Yun Chujiu.

After everyone had finished discussing, they went to the Xingtian Academy's registration site to prepare to register.

Although there were still a few days before the entrance exam, there were still a lot of people who had registered. After a full two hours, it was finally Yun Chujiu and the others' turn.

The registration was very simple. After checking the identity certificate, they would pay the registration fee and receive a test jade token.

Because of Xue Wuji, many people paid attention to Yun chujia and the other three. Seeing their spiritual power levels, the discussion shifted from Xue Wuji's appearance to their aptitude.

"TSK tsk, although that red-clothed young master is pretty good-looking, his spiritual power level is only at the first level of the spiritual profound realm. He's actually a good-looking but useless idiot."

"I think that red-clothed young master is still better. That little girl's spiritual power level is only at the sixth level of the spiritual venerable realm. Is she here to play?"

"Sixth level of the spiritual venerable realm? Damn, she really is at the sixth level of the spiritual venerable realm. Who gave her the courage to actually participate in the entrance exam of the Xingtian Academy?"

"I think that the girl in white is slightly better. However, the second level of the Lingxuan realm is too low. It is impossible for her to pass the exam."

"That's right. The lowest level we can register for is the fourth level of the spiritual profound realm. Their registration fee is wasted."

..

Mo Fangbing's face flushed red. She wished she could find a hole to hide in.

Jin Zhi was slightly better than her, but her expression was a little unnatural.

Only Yun Chujiu and Xue Wuji were talking and laughing as if they hadn't heard anything.

Seeing this, Mo Fangbing and Jin Zhi decided to throw caution to the wind. They had already signed up anyway, so they could do whatever they wanted!

Ye Bingyu soon learned that Yun Chujiu and the others had signed up for the Xingtian Academy, and she sneered. How could they think that they could get into the Xingtian Academy with just the four of them? They really overestimated themselves!

Six days later, the entrance examinations for the Xingtian Academy and the WA Stone Academy began at the same time..
