

The Yun Family's Ninth Child is an Imp! Chapter 2189

An hour later, people gradually woke up and began to raise their hands. The teacher in charge let the examinees who had woken up walk to the other side of the square.

Yun chujiu saw that there were almost a hundred people who had woken up, so she secretly pinched Xue Wuji's arm.

Xue Wuji was suffering from the "Torture" of a pervert. After he was suddenly woken up by the pain, he looked around in a daze. He did not know whether he was disappointed or feeling something else, in short, he felt a little dejected.

Yun Chujiu's eyes flashed. Wu Ji must be hiding something from her. What exactly happened?

Now was not the time to ask more questions. Yun chujiu used the same method to wake up Mo fangbing. Then, she gave Mo fangbing a subtle wink.

Mo fangbing understood and quietly woke up Jin Zhi who was next to her.

Yun Chujiu was afraid of being discovered, so she deliberately gave the three of them a wink. After a period of time, the four of them raised their hands to signal, and then stood in the designated area.

Teacher Pang's eyes flashed. The other teachers did not see it, but he had been paying attention to Yun chujiu, so he naturally saw her small movements clearly.

However, he did not say anything. Although Yun chujiu had contributed to his flattery, more importantly, he felt that the little girl was a little strange. She had actually broken through the illusion in such a short time. Was it because her mind was extremely pure, or was there another reason behind it? Let's wait and see.

Two hours later, out of the tens of thousands of candidates, only about five thousand people were conscious and stood in the designated area. The remaining people were still immersed in the illusion.

Teacher Pang waved his hand, and the teachers in charge removed the illusion. Only then did the examinees wake up.

Although they were unwilling, the result was already decided. They could only leave dejectedly.

Although the examinees who passed were very excited, they were filled with worry about the second round of the test. This elimination rate was too shocking. They didn't know if they could pass the second round of the test.

Teacher Pang glanced at the crowd. The examinees who were still whispering suddenly became silent. Although they were afraid of upsetting the teacher in charge, the more important reason was that teacher Pang used his pressure. His spiritual power was much higher than theirs. The examinees' legs were a little weak, not to mention gossiping.

Teacher Pang's gaze fell on Yun Chujiu again. He saw the little girl looking at him with a smile and even winking at him.

Teacher Pang..

Teacher Pang had a premonition in his heart that Xingtian Academy would most likely recruit a monster! He shook his head again. He must have been too busy recently, so his brain was not enough. Putting everything else aside, that little girl was only at the sixth level of the spiritual venerable realm. How could she pass all the tests?

Teacher Pang calmed himself down, then he said in a deep voice, "The second round of the test will be conducted in groups of four. After the group is complete, the team leader will go to the teacher to receive the jade token that records the results. "I'll give you 15 minutes. If the group doesn't succeed in the end, the teacher will designate a group."

After everyone heard teacher Pang's words, they began to form a team freely.

Yun Chujiu and the other three were naturally in a team. There was no need to choose a team leader, so team leader little nine officially went online.

Team leader little nine hopped back with a jade token. On it was a number that was fated to be with her — 250.

Yun chujia touched her chin and said to Xue Wuji and the other two, “What do you think will happen if there are only one or two people left at the end? Will it be empty? If that’s the case, you can find someone to replace me. I’ll Take My Turn!”

Xue Wuji and the other two..
