

The Yun Family's Ninth Child is an Imp! Chapter 2192

Yun Chujiu's nest was a stone cave. There were some demon beast bones and fur on the ground, and the smell was very unpleasant.

This cave was very big, so it could be judged that the demon beast in this nest must be very big.

When Yun Chujiu was looking around, she heard a few earth-shaking beast roars, and a huge demon beast walked in from outside the cave.

Yun Chujiu had spent a lot of time and effort on her knowledge these days. She recognized that it was a level 40 pioneer sabertooth elephant.

When the pioneer Sabertooth elephant saw Yun chujiu, it was obviously stunned. It wondered why it was given such a weak little human girl? Sixth Level Spiritual Venerable? Was she playing?

After the pioneer Sabertooth elephant was shocked, it began to roar fiercely. Its sharp two long teeth flickered with a cold light as it approached Yun chujiu step by step.

Yun Chujiu's heart is like a beeping dog!

Oh, shit!

A 40-step Demon Beast?

No wonder that if someone automatically activated the jade plate even eliminated, I guess the timid people scared to death! The 40th Level Demon Beast is equivalent to the human monk's spiritual void six to seven levels.

However, this guy's heart, estimated that these monsters are just to scare people, not really eat people, if the hostages die, also test the wool ah!

After this fellow figured it out, he said with a smile, "Lord Elephant, let's have a frank talk. I guess your task is to look at me. It would be even better if you can scare me into activating the jade token, right?"

The pioneer Sabertooth elephant originally thought that it would faint or activate the jade token after a few roars. It didn't expect that it could actually talk and laugh with it? It was a little strange!

Yun chujiu saw that the pioneer saber-toothed elephant did not have any reaction, then, she continued, "I have always been bold since I was young, so don't scare me. If you shout too loudly, the cave might collapse. Are You Hungry? I Have Demon Beast Meat Here for you to try?"

The pioneer saber-toothed elephant did not expect Yun Chujiu's style to change so quickly. She gave it food without saying anything. However, it thought that since the little girl had guessed it, it was probably useless to scare her. It was not bad to eat something.

Yun chujiu saw that the pioneer sabertooth elephant did not have any objections, so she took out a wind blade golden spotted tiger's corpse from her storage ring and threw it to it.

The pioneer Sabertooth elephant sniffed and saw that there was nothing unusual, so it began to eat.

Yun chujiu watched from the side. She had planned to poison it, but she felt that it was not very appropriate. Whether it could succeed or not was another matter. The main thing was that the pioneer Sabertooth elephant was also in a sense protecting the hostages. If it died, other demon beasts might attack the hostages, and that would not be worth it.

Yun chujiu and the pioneer Sabertooth elephant were getting along very well, but that did not mean that the other examinees were getting along well. The examinees who were taken hostage one after another could not withstand the great fear and were sent to the Divine Axe Square with their jade tokens activated.

Once the examinees who were taken hostage were sent out, the examinees in the same group would also be sent out. Naturally, they could not help but complain to each other.

At this moment, six hours had passed since the test. The position of the Blue Dot on the topographic map kept changing.

Teacher Pang glanced at the topographic map of group 250 and then looked at the topographic maps of the other groups. He could not help but shake his head. It seemed that strength was the true principle.

The Blue Dot of group 250 was already far behind the other groups. It was probably because the spiritual power of the other groups was too low, so their speed was slowed down. If this continued, they would definitely be eliminated.
