

The Yun Family's Ninth Child is an Imp! Chapter 2200

"Little Jiu, this direction seems to be the direction of the tenth group. Shouldn't we choose another route?" Jin Zhi asked in puzzlement.

Xue Wuji and Mo Fangbing also looked at Yun Chujiu in puzzlement. If it was the same route as the tenth group, how could they compete with the tenth group?

Yun chujiu smiled slyly. "This is the brilliance of our group leader! "I've seen it just now. The third round of the test not only tests our spiritual power, but also our endurance. We need at least three days to reach the finish line from where we are now.

"Instead of choosing another route, we might as well secretly follow behind the tenth team. "Let them clear the obstacles for us. We can just sit back and enjoy their achievements!

"At the last moment, when their spiritual power is almost used up, we'll send someone who comes later to catch up. We'll infuriate them to death!"

Xue Wuji and the other two looked at each other and gave each other a thumbs up. Damn it! Damn it! This method was absolutely terrible!

However, they had to admit that this method was simply too great! The tenth group was charging at the front while they were conserving their energy at the back. At the end, they would take a detour and charge to the front. They would definitely be ahead of them.

In the following period of time, Yun Chujiu and the other three leisurely followed behind the tenth group. Anyway, they would not be able to discover it if they kept a distance.

Moreover, the tenth group was dreaming. They did not expect that there would be someone so shameless as to follow behind them and enjoy the fruits of their labor.

Time passed quickly. The results would not be out for at least three days, so teacher Pang temporarily left the Divine Axe Square to deal with some other matters.

The rest of the teachers would only pay attention to the topographic map on the big screen occasionally. The rest of the time, they would take turns to rest and meditate.

When everyone was free, they would naturally chat about the situation of the test, one of the instructors said, "In the third round of the test, if we want to talk about the disparity in strength, it should be group 10 and group 250. This result is without any suspense."

"That's right. Group 10 is much stronger than group 250. The winner will definitely be group 10." In fact, group 250 was just taking advantage of the situation in the second round of the test. In the third round, even if she wanted to take advantage of the situation, there was nothing she could do!"

..

After hearing everyone's discussion, the slightly plump teacher Wen raised her head to look at the big screen. Then, she was stunned with her mouth wide open!

"You, listen to me. It seems that group 250 is taking advantage of the situation again!" Teacher Wen said with a dumbfounded look.

When the crowd heard teacher Wen's words, they asked one after another, "Teacher Wen, what do you mean? The third round of the test is about spiritual power and endurance, as well as teamwork. How can it be possible to take advantage of the situation?"

Teacher Wen laughed bitterly and then pointed at the big screen, "You'll know when you see it!"

Previously, the crowd did not pay much attention to Yun Chujiu and Liang Hong's two groups. After all, there was no suspense about the outcome of the battle. Now that they heard teacher Wen's words, they raised their heads and looked at the topographic map of the two groups.

Each of the two groups participating in the battle were marked with red light spots and blue light spots respectively. The blue light spots and red light spots on the other topographic maps were two different routes. For example, one of the groups chose to approach the target from the east, while the other group chose to approach the target from the west.

Even if the route chosen was not in two directions, it was at least very far away. They were afraid of being influenced by the other party and also to prevent the other party from knowing their progress.

But what about group 10 and group 250?
