

## The Yun Family's Ninth Child is an Imp! Chapter 2208

Naturally, no one answered the questions of Liang Hong and the others. Whether it was to vent their anger or to get the pills quickly, the four bloodthirsty wind blade wolves had only one goal, which was to kill the four of them quickly.

Liang Hong and the others were really unlucky!

If there were only two bloodthirsty wind blade wolves, they could still deal with them if they worked together. However, four of them came at once. How could they be a match for them?

Liang Hong and the other three quickly fell into a disadvantageous position. Their bodies were riddled with injuries and they were bitten until they cried for their parents. They were in a sorry state.

At this time, Yun Chujiu had already found the token. However, this fellow was also quite damaged. She clearly had the token in her hand. This test would be over and they and the tenth group would be teleported out.

However, in order to let the four bloodthirsty Windblade Wolves Teach Liang Hong and the others a lesson, this fellow did not pick up the token. He was prepared to pick it up when Liang Hong and the other three were about to die.

Xue Wuji and the other two understood Yun Chujiu's intention, so they stood aside and watched the show. No one picked up the token.

The teachers outside the big screen twitched their lips. That black fragrant grass was really bad! They could have ended the test, but they just stood there and watched the show.

Although they did not hear what Yun Chujiu said to the four bloodthirsty wind blade wolves, they were certain that the four bloodthirsty wind blade wolves were instigated by Yun Chujiu. That was why they were desperately biting Liang Hong and the others.

The teachers who ate the melon suddenly had another impression of Yun chujiu — revenge for the smallest grievance!

However, the teachers who ate the melon didn't have any bad opinions about this. Cultivators were originally tougher than ordinary people, and if they were soft-hearted, only death awaited them.

Moreover, the little girl didn't personally deal with Liang Hong and the others, so they couldn't catch her even if they wanted to.

Yun chujiu saw that Liang Hong and the other three were only left with their last breaths, then, she smiled and shouted at the four bloodthirsty wind blade wolves, "Four wolves, I've placed the medicinal pills here! Let's go, see you again! I have high hopes for you!"

After Yun Chujiu finished speaking, she took out the medicinal pills and placed them on the ground. Then, she picked up the token. A white light flashed in front of her eyes, and when she regained her sight, she was already on the Divine Axe Square.

Following that, the four people from Team 10 were also teleported out. Although there weren't any injuries on their bodies, it was clear that they hadn't walked out from the shadow of death yet. Each and every one of their faces were filled with shock and fear.

Yun chujiu glanced at them. A bunch of brainless idiots. They even dared to ridicule her brother Wu Ji. They were really courting death!

Xue Wuji glanced at the four of them with his slender phoenix eyes. He had always protected Yun chujiu in the Tian Yuan continent, but he did not expect Yun chujiu to protect him in the immortal Yuan continent, he had never had such a strong desire to become stronger.

Moreover, he had learned from Yun chujiu that there was more than one way to win. Sometimes, tricks were more useful than fighting head-on.

From then on, the middle school boy ran toward the Path of blackness, never to return..

Liang Hong finally came back to his senses. When he saw Yun Chujiu, he was instantly furious, he pointed at Yun chujiu angrily and scolded, “B \* Tch! It’s all your fault! You cheated! If you didn’t let the four bloodthirsty Windblade Wolves stop us, we would have won!”

Yun chujiu sneered, “Can you grow a brain? Those four bloodthirsty wind blade wolves are not my spiritual pets, how can I command them? You are obviously the ones who are so angry that even the demonic beasts are disgusted by you, that’s why they attacked you! If you want to blame someone, blame yourself for being worse than the beasts!”
