

The Yun Family's Ninth Child is an Imp! Chapter 2221

Yun chujiu walked into the pool. The water was very deep. Yun Chujiu swam forward slowly. The flower was clearly anxious and urged, "Little fairy, you should swim faster!"

"Sigh, I can't help it. I just learned how to swim. I'll try to swim faster." Yun Chujiu said this, but her speed became slower.

The light of the flower dimmed again. Jin Zhi urged from the shore, "Little Jiu, don't you usually swim very fast? Hurry Up!"

Yun chujiu said helplessly, "The liquid here is not water. I really can't swim fast!"

Jin Zhi stamped her feet anxiously, wishing that she could go down and push Yun Chujiu.

Finally, Yun Chujiu was less than ten feet away from the flower. The leaves of the flower trembled with excitement, "Little Fairy, you have to work harder. You can go ashore soon."

Yun chujiu smiled brightly at the flower. Then, she raised her right hand and shot several small purple needles at the flower.

At the same time, Xue Wuji knocked Jin Zhi unconscious with one palm strike and dragged her to a place dozens of feet away from the pool. Then, he jumped into the water and swam toward Yun chujiu with all his might.

The flower glowed with a bright red light and blocked Yun chujiu's small purple needles. Unexpectedly, the small purple needles exploded one after another, and the flower's protective shield trembled, the flower could not help but say in a flustered and exasperated manner, "Little Fairy, what do you mean by this?"

Yun chujiu sneered while attacking, "What do you mean? If you want to pretend to be a little white flower, you better act like one! Didn't you notice that there is rabbit hair on your petals? You didn't even wipe your mouth after eating it. How Stupid!"

The flower subconsciously shook its petals and realized that there was no rabbit hair. It knew that it had been fooled!

"Good! Good! Good! You Stinky Girl is indeed cunning. How did you find out?" Seeing that it had been seen through, the flower decided not to pretend anymore.

"It's very simple! Do you think that I will believe you just because you have bewitched my companions? These liquids are the nemesis of those demonic plants outside. If you are really an immortal herb, why are you afraid of these liquids?"

It can only mean that you're also a demonic plant, and you're of the same species as those demonic plants outside! "Moreover, that wind-blade rabbit has disappeared without a trace. There's a high chance that it was eaten by you." Yun chujiu curled her lips and said. With such an IQ, she still wanted to deceive her? It was simply a dream.

Seeing that all the lies had been exposed, the flower decided to stop pretending. "HMPH! Stupid Girl, at least you're Smart! However, do you think that I can't do anything to You?"

After the flower finished speaking, a leaf shot out from its stem and headed straight for Yun Chujiu's glabella.

Yun chujiu naturally would not sit still and wait for death. She pulled Xue Wuji and the two of them sank into the water.

The leaf was obviously very afraid of the liquid in the pool. It circled the surface of the water a few times before flying back to the stem of the flower.

Yun chujiu and Xue Wuji both had water repellent beads, so the two of them did not have any problems underwater.

Yun chujiu was in a dilemma. If it was safe, she would dive from the bottom to the shore, then leave this place, and then find a way to return to the surface.

If it was risky, she would find a way to kill the flower. Perhaps she could find a way to get up.

Yun chujiu gritted her teeth. F * ck! In any case, they could still dive into the water.

Yun chujiu gestured to Xue Wuji. Xue Wuji understood. The two of them filled the storage rings with liquid that could hold water. Then, they suddenly surfaced and splashed the liquid onto the flower.
