

The Yun Family's Ninth Child is an Imp! Chapter 2222

The red light of the flower bloomed, blocking the liquid that was pouring on it. However, Yun Chujiu saw that the light shield of the flower was corroded by the liquid.

Yun chujiu was overjoyed. This liquid was indeed the flower's nemesis!

Therefore, the two of them began to pour water with all their might. The flower was so angry that it shot all seven leaves on the stem towards Yun Chujiu and Xue Wuji.

Yun chujiu and Xue Wuji had no choice but to dive into the water again. Just as the flower was feeling proud, the water started to churn. Yun chujiu and Xue Wuji threw the water directly at the seven leaves.

The seven leaves did not have a protective shield. They were corroded in an instant and soon turned into nothingness.

The flower's attitude immediately changed. It begged pitifully, "Little fairy, although I am a demonic plant, my attack power is very strong! As long as we sign a contract, I will definitely be of great help to you!"

Yun Chujiu touched her chin and pondered for a while. "What you said seems to make sense. I do need a powerful helper. Anyway, you don't have any leaves to attack me now, so I will take you in!"

As Yun Chujiu spoke, she actually swam towards the flower. The flower's petals trembled slightly, obviously very excited.

It thought proudly that although this little girl was cunning, she was still too young. As long as she came up, it would be the end of her!

At this moment, a large basin of liquid was thrown at the flower. The flower was completely unprepared and was directly splashed. It immediately let out a shrill cry.

Yun chujiu did not care whether it cried or not. She kept pouring liquid on its body. Xue Wuji also came over to help. The two of them wished that they could pour all the liquid in the basin onto the flower.

The light of the flower gradually dimmed. First, the petals began to shrink, and then the stem began to shrink. In the end, it actually turned into a seed.

When Yun Chujiu saw the seed, she immediately thought of the strange grass in her Dantian. The strange grass quickly shook its leaves, indicating that it was not the same as this vicious flower.

Yun chujiu did not dare to touch the seed. Since someone had used so much liquid to trap the flower, it meant that although the liquid had a deterrent effect on the flower, it could not kill it, otherwise, she would not have spent so much effort to trap it in the pond.

Yun chujiu tried to strike it with lightning and blew it up with a small purple needle. Xue Wuji also tried to attack it with his spiritual skull, but the seed was still intact.

Yun chujiu looked at her right palm, she said sincerely, "Little Flame, I know that you may not have much power now, but this seed is a disaster. Only the strongest fire in the world can deal with it. If you burn it to death, I will satisfy all your requests in the future, Okay?"

Yun chujiu smacked her lips, and the palm of her right hand heated up. Yun chujiu was delighted, and she struck the seed with several bolts of lightning.

The seed let out a shrill cry. Yun Chujiu was afraid that it would not die, so she kept hacking and hacking, and finally, the seed turned into ashes.

Yun Chujiu kissed her right palm a few times. "Little Flame! I love you to death!"

At this time, this fellow still did not know that she would regret countless times in the future, promising the little flame to fulfill all its requirements. It was simply a bloody history of being burned by fire.

When Yun Chujiu was kissing her right hand, she noticed that the liquid in the pool was rapidly decreasing. She could not help but wonder, what was going on?
