

## The Yun Family's Ninth Child is an Imp! Chapter 2229

After a short while, Yun Chujiu opened her eyes. Then, everyone discovered that the spiritual power in her body had started to soar from the sixth level of the spiritual venerable realm!

Seventh level, eighth level, ninth level of the spiritual venerable realm. It was only until the first level of the spiritual profound realm that it stopped rising.

Everyone was dumbstruck. This time, there was no need to interrogate her. This must be the truth! Other than the reason of obtaining the inheritance, there was no way to explain the reason for the soaring spiritual power of this ink fragrant grass.

Oh My God!

It soared by four levels in an instant. This ink fragrant grass was really a stray dog! SH \* t! Luck!

Yun chujiu sneered in her heart. Did she reply this time? F \* ck, if it wasn't for pretending to be a pig to eat a tiger, this old woman would have directly adjusted her spiritual power to the fourth level of the spiritual profound realm, scaring all of you to death!

Although Yun Chujiu thought so in her heart, she revealed a blank expression on her face, and then a pleasantly surprised expression.

When everyone saw Yun chujiu like this, the last bit of doubt disappeared.

Teacher Pang asked Yun Chujiu about the incident again, and it was exactly the same as what Xue Wuji had said.

Cough, cough, the two of them had already discussed it, so it was naturally not the slightest bit off.

Now, the question was, did Yun Chujiu and the other two manage to get into the Sky Punisher Academy or not?

The teachers had another round of tit-for-tat debates. Some of them believed that Yun Chujiu and the other two had not completed the test and could not be admitted.

Some of them believed that Yun Chujiu and the other two had already accepted the inheritance and that falling off the cliff was an accident. They should be considered to have passed the test.

Both parties were arguing until their faces turned red. Yun chujiu lowered her head and listened quietly. This fellow was extremely certain that they would be accepted, unless the teachers of the Heaven Punisher Academy had water in their heads!

The three of them had gotten into trouble in the Heaven Punisher Academy's territory. If they were rejected just like that, the reputation of the Heaven Punisher Academy would be lost!

Furthermore, Xue Wuji had a mutated wind spirit root and had obtained a heaven rank high-grade inheritance. His future was limitless!

Although Yun Chujiu had a heavenly thunder spirit root that was not tolerated by the Heaven Dao, she had obtained two inheritances at once. Therefore, her future development was uncertain. She might be killed by the Heaven Dao, or she might soar to the sky.

Although Jin Zhi did not have anything special about her, she was with Yun Chujiu and Xue Wuji. If she wanted to be accepted, she would naturally be accepted together.

As expected, while both sides were arguing, Dean Gongsun and the other vice-deans discussed, he coughed and said, "Mo Fangcao and the other two met with an accident in our Sky Punisher Academy, so the responsibility is not on them. Moreover, they all received the inheritance of the Heavenly Dao cliff at the stipulated time, so we decided to officially accept the three of them as students of the Sky Punisher Academy."

Dean Gongsun made the decision, and those who originally opposed it couldn't say anything more. All of them quieted down.

Yun Chujiu, this fellow, recorded all those who opposed their acceptance into Xiao Hei's account book. She was just waiting. In the future, it would be fine if they didn't provoke her, but if they provoked her again, then both old and new debts would be settled!

At this moment, teacher Pang asked Yun chujiu, "Mo Fangcao, what inheritance did you receive?"

"One is a heaven rank high-grade heavenly thunder spirit root cultivation technique, and the other is an earth rank mid-grade talisman inheritance. However, I didn't really understand it, I just memorized it." Yun chujiu wasn't stupid enough to say that she had received two immortal rank inheritances, a bird that stood out would be shot. Keeping a low profile was the way of the king.

It didn't matter if the heavenly thunder spirit root cultivation technique was a little higher. After all, it was useless for others to go! The inheritance of talisman can not be said to be too high, otherwise it's easy to be coveted.
