

The Yun Family's Ninth Child is an Imp! Chapter 2240

The students of the Star class were not stupid. They immediately understood that teacher Dong was talking about Yun Chujiu and the other two. All kinds of gazes immediately turned to Yun Chujiu and the other two.

Yun Chujiu's expression was as calm as usual. Although Xue Wuji and Jin Zhi did not look too good, they were still relatively calm.

Teacher Dong snorted coldly and continued, "Most of you should have already mastered the high-level spiritual power materialization technique. Do you feel that the learning of spiritual power materialization has come to an end?"

Yun Chujiu's heart moved. Although this teacher Dong was snobbish, his teaching level seemed to be pretty good. She would think about it after a while.

Teacher Dong saw that no one said anything, he continued, "If you think that way, then you are very wrong! The high-level materialization of spiritual power that you have mastered is only the beginning of materialization of spiritual power! The highest level of materialization of spiritual power is to be moved at will. You can materialize whatever you want."

One of the students raised his hand and gestured for teacher Dong to nod, indicating that he could ask questions, that student then said, "Teacher Dong, didn't you say that the spiritual beasts that each character materializes are fixed? If it's really as you said, then can the spiritual beasts be replaced with other ones?"

This student's words represented the inner thoughts of many students. Everyone turned to look at teacher Dong.

"What you said is right and wrong. When you use a high-level materialization technique, the spiritual beasts that you materialize are your intrinsic spiritual beasts, and their attack power is also the strongest.

"However, if you master the Spirit Power Phantom technique, you can materialize to assist the spiritual beasts and help them attack," teacher Dong explained.

Everyone immediately exploded!

They had never heard of such a saying before. Could teacher Dong's words be understood as saying that a person could have other auxiliary spirit beasts besides the Natal Spirit Beast?

Didn't this mean that the attack power would double or multiply by several times?

There were also some people who arrogantly did not participate in the discussion. They were all related to first-class families, so they had long heard of this.

“Teacher Dong, other than the intrinsic spirit beast, how many auxiliary spirit beasts can that person materialize?” A classmate asked excitedly.

“Theoretically, there is no limit to the number, but this has a direct relationship with everyone’s spirit energy reserve and the strength of their spiritual sense. Generally speaking, people at the level of Ling Xuan and spiritual void could only materialize one auxiliary spirit beast, but the strength of the attack was different. People at the level of Ling Kong could conjure two support spirit beasts at most.

“Of course, if one’s talent isn’t good, even if one’s spirit power has reached the level, they wouldn’t be able to conjure a support spirit beast.”

Teacher Dong’s words were like a basin of cold water, instantly dampening the enthusiasm of the crowd by more than half. At first, they thought that they could materialize many support spirit beasts, but they didn’t expect that even Ling Kong could only conjure two.

When teacher Dong saw this, he sneered and said, “Do you guys think that this skill is useless? Wrong, very wrong! When two enemies fight, any small matter can decide life and death. If you have one more support spirit beast than the enemy, your chances of winning will greatly increase.

Moreover, do you think that two support beasts are the end point? “As far as I know, the almighty experts of the Chaos Origin sect and the killing origin sect can even materialize ten auxiliary beasts!

“It’s a big taboo to aim too high. Go back and reflect on yourself!”

When the students heard teacher Dong’s words, they naturally began to discuss animatedly.

At this moment, Xue Wuji and Jin Zhi were thinking that little jiu could release a group of spirit piglets. What was she doing? Could she be even more awesome than the mighty figures of the chaos origin sect and the killing origin sect?
