

## The Yun Family's Ninth Child is an Imp! Chapter 2241

Yun chujiu herself was also puzzled. The higher the spiritual power, the more spiritual beasts would appear? Then what was her group of piglets?

However, it was also true. When she used the high-grade spiritual power materialization spell, after the purple piglets appeared, the silver piglets of spiritual power disappeared. This could also be considered a Natal Spiritual Beast, right?

Teacher Dong saw that Yun Chujiu and the other two were puzzled, and he couldn't help but despise them in his heart. He heard that these three were all from the Tian Yuan continent, and their comprehension was indeed too poor! Although that Xue Wuji had a mutated wind spirit root, his comprehension wasn't very good, and he couldn't even understand the words.

After teacher Dong coughed, everyone quieted down, and teacher Dong began to explain the spiritual power phantom technique.

Of course, this was only the first lesson. What he explained were some general theories, so everyone listened in a daze.

Teacher Dong was clearly prepared for this, when the lesson was about to end, he said, "The spirit power phantom technique can not be learned overnight. Don't be in a hurry to achieve success. Your top priority now is to cultivate diligently and work hard to raise your spirit power. "Especially for some people, they have to be self-aware. If their foundations are weak, they have to fly first. Don't drag down our star class."

Yun chujiu cursed in her heart. Pui! ! You're not a F \* cking pig. You still have a leg to stand on? ! Moreover, the Star class was originally a poor class. It was not certain who would be the one dragging down who!

After teacher Dong finished speaking, he turned around and left the classroom.

The woman in White who had mocked Mo fangbing earlier and the woman in pink looked at each other, the woman in pink raised her voice and said to Mo fangbing, "Mo fangbing, what's your relationship with those three good-for-nothings? You're the daughter of a third-grade family after all. You wouldn't be willing to stoop down and hang out with them, right?"

Mo fangbing was both angry and anxious. Although she intended to draw a line between herself and Yun Chujiu and the other two, she still wanted to leave some leeway. After all, she didn't know anyone else in the Sky Punisher Academy.

Now that the woman in Pink asked this question, she was in a difficult position. If she drew a clear line with Yun Chujiu and the other two, she could only completely cut off all ties in the future. If she didn't draw a clear line, the other people in the Star class would probably isolate her. What should she do?

Seeing that Mo Fangbing didn't say anything, the woman in Pink curled her lips. "What? It seems like you're with them. Since that's the case, you can go sit with them. Don't squeeze in with us!"

When Mo Fangbing was in the Mo family, she had always thought that she was superior to others. However, in the Xingtian Academy, because of her low spiritual power, she always felt that she couldn't lift her head up.

Although the students of the Xingtian Academy didn't come from a high background, a third-class family was nothing at all. Many people were related to first-class and second-class families. Although some people came from poor backgrounds, their aptitude was good enough. Therefore, they didn't look up to a family like the Mo family, which was barely able to squeeze into the third-class family.

The things that Mo Fangbing was proud of were broken, so her cold and proud shell was also broken. She bit her lips and said with difficulty, "Mo Fangcao is only a member of the Western continent branch of the Mo family. I don't have a deep relationship with her. Xue Wuji and Jin Zhi, i. . . I didn't know them before."

Hearing Mo Fangbing's words, the woman in pink smiled proudly at Yun Chujiu, then, she said to Mo Fangbing, "Fangbing, I told you. How can a third-class family's daughter be friends with those three good-for-nothings? ! Don't worry, we'll take care of you in the future."

Before Mo Fangbing could answer, she heard Yun chujiu say clearly, "Sister fangbing, did you mean what you said just now? Are you trying to draw a clear line with us?"
