

## The Yun Family's Ninth Child is an Imp! Chapter 2267

Jin Zhi glared at Yun Chujiu. "Why are you taking a nap? Go after lunch! Otherwise, teacher du will be even angrier."

"Alright, I'll listen to you, Beauty Jin Zhi! In fact, teacher du might also take a nap!" Yun chujiu pouted and said.

After lunch, Jin Zhi and Xue Wuji returned to the dormitory, while Yun Chujiu went to the Spirit Beast Garden to see teacher Du.

The Spirit Beast Garden was naturally not built in the central area of the academy. Otherwise, how could it stand the noise and smell.

Therefore, the Spirit Beast Garden was located in the northwest corner of Xingtian Academy.

Yun chujiu strolled to the Spirit Beast Garden. She explained the purpose of her visit to the handyman who was guarding the Spirit Beast Garden. After the handyman sent a message to teacher Du, Yun Chujiu was allowed to enter the Spirit Beast Garden.

"This student, teacher du is in the spirit insect area. If you walk along this road, you will be able to see the sign of the spirit insect area in less than an hour," said the handyman.

Yun chujju nodded and thanked him. Then, she strolled slowly as she strolled.

The Spirit Beast Garden occupied a large area. There were many beast houses around the Bluestone Road. Those spirit beasts were all locked inside by the array.

To put it bluntly, Spirit Beasts were demonic beasts that had been trained. They lacked a bit of wildness and were more docile.

The Spirit Beasts in these beast houses were very calm. They should eat and play. It was somewhat similar to the zoo in her previous life.

Yun chujju had only read about many of the spirit beasts here in books, so this fellow would walk and read while stopping occasionally to take a closer look.

Those spirit beasts were used to being looked at by people, so they didn't have any reaction.

After the Beast area was the Bird Area. Yun chujju rarely had the opportunity to see Spirit Beasts, so she looked even more carefully.

When she saw some spirit beast eggs, this fellow couldn't help but wipe his saliva. It had been a long time since he had eaten steamed egg custard. No matter what, he had to go to the canteen to order a night of steamed egg custard to eat.

It was supposed to take an hour, but this guy had walked for two hours before he reached the spirit insect area.

"Teacher du? Teacher du? Are You There?" Yun chujju did not see anyone, so she pulled her neck and shouted.

"Noisy! Quickly shut up! What if you scare the larvae?" As she spoke, a square-faced old man walked out from a beast house.

The old man's expression was slightly displeased. It was obvious that he was dissatisfied with Yun Chujju's behavior.

Yun chujju touched her nose and felt that she was in the wrong. She quickly said, "Teacher Du, I was wrong. I will definitely pay attention next time. are the larvae of the spiritual insects very timid?"

Teacher du saw that Yun Chujju's attitude of admitting her mistake was not bad, his expression softened a little. "They are divided into different species. Some of the larvae of the spiritual insects are very timid,

but some of the larvae are not a hindrance. For example, the larvae of the three diet herbivorous ants are very timid, while the larvae of the three-colored butterfly are very courageous.”

From this encounter, Yun chujiu could basically judge teacher Du’s character. He was a rigid learning addict! Needless to say, he was rigid. One could tell from his facial features that he didn’t have a smile on his face.

Other people would stay in their own courtyards without classes, but this one stayed in the Spirit Beast Garden. Moreover, when he talked about spirit beasts, his eyes lit up. He was simply obsessed with Spirit Beasts!

“Teacher Du, Spirit Beasts and spirit beasts are very popular among everyone. Can the attack power of these spirit insects compare to theirs?”The best way to quickly close the distance between him and the learning addict was naturally to discuss academic issues!

Sure enough, when teacher du heard Yun Chujiu’s question., he started to talk non-stop. “Although the individual attack power of the spirit insects is not very strong, the spirit insects live in groups. If one can’t do it, there will be hundreds or thousands of them. It’s just that the spirit insects are not easy to control, so very few people raise them...”
