

The Yun Family's Ninth Child is an Imp! Chapter 2268

At first, Yun Chujiu was still standing and listening respectfully. Later, she saw that teacher Du was collecting a lot of information. From the attack power of the spiritual insects to the species of the spiritual insects, and then to the characteristics of the population of the spiritual insects, it seemed that he meant.., it would probably not be able to stop for a few hours.

Yun Chujiu simply took out two chairs and sat on one by herself. She let teacher Du sit on one and continued listening to teacher Du's long story.

Although what teacher du said was no longer Yun Chujiu's question, Yun chujiu still listened with great interest. Many of what teacher du said was the first time she heard it, so she treated it as learning.

Just as teacher Du was talking non-stop, a handyman walked over. "Teacher Du, it's time to cut the honey. Please drive away the red-eyed poisonous tail bees."

Teacher du realized that he had been talking for two hours, and his face was a little embarrassed.

Yun chujiu naturally put away the two chairs and said sincerely, "Thank you for your explanation, teacher Du. I've learned a lot today. Well, if you have something to do first, I'll just wait by the side."

Although teacher Du's impression of Yun Chujiu had changed, he felt that he should still scold her, so he said, "Come with me to the Beehive first. We'll talk about your leave later."

Yun chujiu cursed in her heart. This teacher du was really inflexible. He could have just asked her to go back, but he still had to ask her about it.

Yun chujiu had no choice but to follow teacher Du and the servant to the beehive.

When they reached the place, Yun Chujiu could not help but be surprised. She thought that the Beehive was just a beast house, but she did not expect that the so-called beehive was a large garden.

The garden was planted with flowering plants and trees, and the flowering period was different. This way, the red-eyed venomous tail bees could collect honey at any time.

"You guys wait outside first. After I drive the red-eyed venomous tail bees into the array, you guys can go in,"teacher du said seriously.

After teacher du finished speaking, he took out the jade token to open the beehive and walked in.

The scarlet-eyed venomous-tailed bees were extremely ferocious. When they saw teacher du enter, they hummed and attacked teacher Du.

After teacher du set up the spiritual energy barrier, he spent a lot of effort to drive the bees into an array formation.

After teacher du set up the array formation, he let Yun Chujiu and the handyman enter.

The handyman went to the Beehive and started to get the honey.

Yun chujiu sniffed. Oh My, the honey made by the scarlet-eyed venomous tail bee smells good. I wonder what it tastes like.

The servant rolled his eyes and said with a smile, "Teacher Du, is the honey of the scarlet-eyed venomous tail bee poisonous? What effect does it have?"

"Although the scarlet-eyed venomous tail bee has poisonous needles, its honey is not poisonous. Not only is it not poisonous, but it is also a rare high-level ingredient. The academy harvests the honey regularly to serve the distinguished guests."

Yun chujiu nodded and said shamelessly, "Teacher Du, is this honey really as good as you said? Can I try it? I just want to taste a little bit."

Teacher du was so angry that he was amused, but he still agreed. "Get yourself a small piece of the beehive and try it."

Hearing teacher Du's words, Yun Chujiu's image of teacher du suddenly became high and mighty in her heart. So what if he was old-fashioned? At least he had a good heart.

Yun chujiu could not wait to jump to the side of the handyman. The beehive was very large, and the handyman was carefully cutting off the outer part of the beehive.

Then, he was stunned to find that the little girl took out a large kitchen knife and began to cut the beehive that had the most honey.
