

The Yun Family's Ninth Child is an Imp! Chapter 2272

However, it was clear that he was thinking too much.

With the Queen Bee's order, the worker bees were extremely obedient. They even formed a picture of a peach heart in the air.

"Hehe, teacher Du, how is it? These worker bees are quite obedient,"yun chujiu said proudly.

The corner of teacher Du's eyes twitched violently. The scarlet-eyed poisonous tail wasp was a famous poisonous insect. Now, it was used to make the little girl happy. It was really a waste of natural resources.

After the two of them left the beehive, teacher du remembered the original purpose of looking for Yun Chujiu.

"Why did you skip class yesterday? Don't say any excuse of having diarrhea. Tell the truth."Teacher du asked seriously.

Yun chujiu naturally wouldn't say that she was struck by lightning. She pouted and said, "Yesterday, my face had a layer of rash, so I wore a veil to cover my ugliness.

I didn't expect that during the spiritual power class, teacher Dong would insist that I take off my veil. If I didn't take it off, he would tell me to get out of the classroom and even scold me for being useless. I was so angry that I ran out of the classroom.

Originally, I planned to go back to class for the second period. However, Wu Yun suddenly appeared in the sky. I was afraid that he would come and strike me. What if I implicate the other students? I thought for a moment and returned to my dormitory. After all, my dormitory was a separate courtyard. Even if I was struck, I wouldn't implicate others. "Teacher Du, I really didn't mean to skip class. I guarantee that there won't be a next time."

Teacher du nodded his head in gratification. "You Little Lass, although you are a little gluttonous and your personality is a little off, you are very kind. "Forget it this time. Next time, even if you have to dodge the Heavenly Lightning, you have to tell the teacher in charge to avoid misunderstanding."

Yun chujiu nodded her head and secretly gave herself 32 likes. Full marks!

In the evening, Yun Chujiu took out the honey and gave it to Xue Wuji and Jin Zhi to eat. "I exchanged it with fresh blood. You guys should try it!"

Xue Wuji and Jin Zhi were stunned. "What's going on?"

Yun chujiu told them everything, then, she said, “In the future, I’ll have an excuse to go to the beehives. I’ll make sure that you can eat fresh honey at any time. When I get close to old du, I’ll see if there are any other good things to bring back for you.”.

Although she was injured today, the harvest was still pretty good. There was no need to talk about the honey. After making friends with teacher Du, we could start a special class in the future.

The most important thing was that no one else could contract an adult or a larva, but I could! Maybe it would be useful in the future. Not to mention other things, raising a nest of spiritual bees to collect honey would be very good...”

Yun chujiu was talking, xue Wuji said gloomily, “Little Sister Jiu! I always thought that you were the smartest, but what did you do today? ! Just for a mouthful of food, you got a hole in your arm. If something really happened to you, do you think it was worth it ? ?

If you really want to eat this Bullsh * t honey, let’s think of another way. Do you have to put yourself in danger? You’re lucky. It’s just a minor injury. What if that Bee Queen Pricked Your Eye? Even if you’re not afraid of poison, can you protect your eye?

“Little Sister Jiu, I think you’ve been too complacent recently! “Jin Zhi, let’s go. She can keep the honey for herself!”

Jin Zhi's expression did not look good either. She glared at Yun chujiu and said, "Little Jiu, you're really too smart for your own good! Don't you know that there are queen bee and larvae in the beehive?"

"You're lucky this time. It's just that the queen bee came out to attack. What if those larvae attacked you together when you dragged the Queen Bee? "Will you be able to escape unscathed?"

"Xue Wuji is right. It's because you've been gaining the upper hand in every aspect recently that you've become complacent. Think about it yourself!"
