

The Yun Family's Ninth Child is an Imp! Chapter 2321

The two three-eyed purple-tailed iron-clawed condors looked at each other and went into the belly of the mountain one after the other.

The temperature in the belly of the mountain was still very high. The two three-eyed purple-tailed iron-clawed condors were obviously not used to it. If it were not for their high level of spiritual power, they would have become roasted chickens long ago.

However, humans died for money and birds died for food. They saw the Fire Eating Xiu lying on the ground in the distance without moving, and the little girl was crying her eyes out. They were overjoyed.

It seemed that the fire eating xiu no longer had any ability to resist. That weak human chick was not even worth mentioning. It would be able to kill them very soon. When the time came, they would just bring out the corpse and eat it.

The two three-eyed purple-tailed iron-clawed eagles thought of this and quickly pounced towards Yun Chujiu and the Fire Eating Xiu.

At this moment, the little girl with tears on her face threw two big sacks at them. The two three-eyed purple-tailed iron-clawed eagles subconsciously used their sharp claws to grab the big sacks. How tragic!

With a boom, the chili inside the Gunny sacks flew in all directions. The two three-eyed purple-tailed iron-clawed eagles choked so hard that they couldn't open their eyes.

Yun Chujiu had already put on her gas mask, while the fire eating Xiu used the long hair on its neck to protect its head. At the same time, a human and a beast launched an attack at the same time.

Fire Eating Xiu threw a huge fireball at one of the three-eyed purple-tailed iron-clawed eagles, while Yun Chujiu used a high-level physical transformation spell to release the little piglet of spiritual power.

Fire Eating Xiu could not help but be distracted. Previously, when this weak human chick fought with me, it did not release this thing, so this piglet was probably useless.

However, it was surprised to find that the spiritual piglets were quite agile. The strangest thing was that when the spiritual piglets were about to dissipate, they actually gathered into a purple spiritual piglet, it fiercely pounced on the neck of the three-eyed purple-tailed iron-clawed condor and began to bite.

The three-eyed purple-tailed iron-clawed condor shook its head with all its might, but it was useless. It could only use its claws to pull the purple piglet. This way, its attack power was greatly reduced.

Fire Eating Xiu was dumbfounded. It did not expect that the little weakling still had some skills. Although the purple spiritual energy piglet's attack power was not very strong, it was really difficult to deal with.

At this moment, Yun chujiu shouted at fire eating xiu, "You silly cat! What are you waiting for? Stick to the original plan."

Fire Eating Xiu was scolded until it was dumbfounded. However, it still followed the previous agreement and blocked the two three-eyed purple-tailed iron-clawed eagles with one against two.

Although it was on the same level as the three-eyed purple-tailed iron-clawed eagles, it still had an advantage on the ground. Moreover, the temperature in the belly of the mountain was extremely high. The strength of the two three-eyed purple-tailed iron-clawed eagles was greatly reduced.

Yun Chujiu took advantage of this time to run to the entrance of the cave. She took out a pile of big rocks from her storage ring and blocked the entrance of the cave tightly, so that the two three-eyed purple-tailed iron-clawed condors would not run out, or perhaps other demon beasts would run in.

The two three-eyed purple-tailed iron-clawed condors only realized that they had been tricked at this moment. It turned out that all of this was planned by the little weakling and the Fire Eating Xiu. It was really detestable!

The two three-eyed purple-tailed iron-clawed condors exchanged glances with each other. The eye above their heads was emitting a purple glow.

The three-eyed purple-tailed iron-clawed condors' innate ability was the eye of enchantment. However, every time they used it, they would have to expend a huge amount of spiritual power. Therefore, the three-eyed purple-tailed iron-clawed condors rarely used it lightly.

Fire Eating Xiu's gaze could not help but become somewhat unfocused, and its movements became much slower. When the two three-eyed purple-tailed iron-clawed condors saw this, they were overjoyed. Although they had expended a lot of spiritual power, it was still worth it.
