

The Yun Family's Ninth Child is an Imp! Chapter 2325

Yun Chujiu recorded all these people in Xiao Hei's account book. There was no need to be afraid of accounting. Let's take it slow.

After a while, Yun chujiu saw that everyone here was either praising ye bingying or belittling her and Ye Lan, so she sneaked to the west living room of the Ye residence.

The Ye residence had two large living rooms. The east living room was usually used to entertain male guests, while the west living room was used to entertain female guests.

Ge Shi sat at the main seat and was chatting with a few old ladies.

Naturally, the topic of conversation could not avoid mentioning Yun chujiu. Although Ge Shi tried her best to suppress the gloating in her heart., however, her tone still carried a hint of gloating. "Sigh! "You all probably heard that that girl is LAN's daughter. Not to mention her spiritual power, her personality is not as obedient as Bing Ying. She also has a heavenly thunder spirit root that the Heavenly Dao does not tolerate. The sudden death this time is probably due to the Heavenly Dao wiping her out."

The few old ladies present were all quite shocked when they heard Ge Shi's words. It was actually a heavenly lightning spiritual root? No wonder she died so suddenly at such a young age.

The few old ladies present were all shrewd. When they saw Ge Shi's expression and heard her words, they naturally understood that this ge shi probably did not like the third miss ye who had died.

Everyone felt some disdain in their hearts. Although this ye family was ranked high, this Ge Shi was really unable to bring herself to show off. No matter how dissatisfied you were in your heart, she was already dead, so you shouldn't say anything right or wrong. It was really demeaning.

However, there were still people who supported her.

Liu Shi's mother, Yang Shi, smiled and echoed, "Mother-in-law, if you ask me, Ye Lan was removed from the Ye family back then. You actually succeeded her daughter under the name of the second son. Your ye family is really magnanimous."

Ge Shi sighed, "After all, she's a junior. Even if she doesn't live up to her expectations, she can't just stand by and do nothing. "It's not that I want to say this, but that girl's temperament is really not that good. I originally wanted to teach her some rules, but I didn't expect that she would actually die just like her short-lived mother."

Hearing Ge Shi's words, only Yang Shi chimed in with a few words. The other old madams did not say anything. It was better to die. Ge Shi's harshness was really a little too much.

Yun Chujiu, who was standing in the corner, curled her lips. She wondered if Ge Shi and Liu Shi would be so angry that they would vomit blood if they knew that she was not dead?

Jump around, jump around as much as you want! The more you jump around now, the more disappointed you would be!

Yun Chujiu was afraid that she would be exposed if she stayed in the house for too long. Therefore, she found an opportunity to leave the west living room and returned to the vicinity of the spirit shed. It was difficult to hide in this place with so many people.

Yun Chujiu learned from the crowd that the rule here was to hold a funeral banquet on the third day after the spirit was suspended, and then bury the deceased.

Yun chujiu calculated that tomorrow would be the official day. Other than the people who came today to pay their respects, there would be many people who would rush over. Then, she would give them a surprise tomorrow!

She had already figured it out. Since the ye family had told the public that she had died suddenly, the best way for her to resurrect was to climb out of the coffin. TSK TSK, just thinking about it made her a little excited!

However, how could she climb into the coffin? There should be someone guarding the coffin even at night. It seemed like she needed to find an insider.

Yun chujiu blinked her eyes and looked at Ye Bingyu who was drooping her head with ill intentions.

Ye Bingyu was daydreaming when she suddenly felt that someone was looking at her. When she looked up, she did not find anything unusual.

Ye Bingyu shook her head. It was most likely because she did not sleep well yesterday that she was hallucinating.
