

The Yun Family's Ninth Child is an Imp! Chapter 2347

Yun Chujiu and the other two went to Yun Chujiu's dormitory. Yun Chujiu told them about the Ye family and then took out the things she bought in Ye city to give to the two of them.

"Little sister Jiu, according to what you said, I'm afraid that Ge Shi and Liu Shi won't listen to Ye Wenhong's advice and will find trouble with you in the future. What do you plan to do?" Xue Wuji crossed his legs and asked carelessly.

"What else can we do? ! We'll deal with whatever comes our way ! I'm just an heir. Do you think that old master ye will really divorce Ge Shi and Liu Shi for me or something ? It's simply impossible ! The family head of these large families will always put the family's interests first,"yun chujiu said with slight ridicule.

"Little jiu, if that's the case, then you should go to the Ye family less in the future. They won't go to the extent of treating you badly in the academy,"Jin Zhi said from the side.

"Beauty Jin Zhi, you're wrong.". "Xingtian Academy isn't like Tianyuan Academy. Ge Shi and Liu Shi won't need much effort to do anything here.". "So, I still have to go to the ye family. Not only do I have to go, but I also have to go often.".

"Have you heard of the word 'nibbling'?"? "Nibbling. I want to dissolve their influence in the Ye family bit by bit, and wear down Old Master Ye's patience with them bit by bit.".

“You guys also have to work hard in your cultivation. When the primordial chaos sect opens to recruit disciples next year, let’s go take the exam.”

Xue Wuji and Jin Zhi were both stunned. “Little Sister Jiu, doesn’t the Xingtian Academy take five years to graduate? Why do you want to go to the Primordial Chaos sect again? Besides, the primordial chaos sect is a super sect. Can we get in?”

“Who cares if we get in or not? Let’s Go and try! Of course, it’s best if we get in. If we don’t, we can come back to the Xingtian Academy and continue studying,” Yun Chujiu said indifferently.

Jin Zhi was elated. “Little Jiu, what you said is easy. If we were to go to the primordial chaos sect to participate in the entrance exam, it would probably take us two months to go back and forth and take the exam. Can Xingtian Academy give us such a long vacation?”

Yun Chujiu leaned back on the chair and curled her lips. “Everything is done by man. There’s nothing impossible in this world. If you can’t do it, it’s only because you haven’t found the right method. Leave this matter to me. It’s only true that you guys should quickly increase your spiritual power.”

Although Xue Wuji and Jin Zhi still didn’t quite believe it, when they thought of this pervert’s glorious past, they also believed it a little.

In the following period of time, Yun Chujiu was simply a school bully in Xingtian Academy!

Not to mention the first grade students, even the higher grade students avoided her. What a joke. This fellow had the temperament of a bandit. Now that she had the identity of the Ye family's first daughter, if she was provoked, she would simply be looking for trouble.

Even the first grade star class's teacher Dong restrained himself a lot. He no longer ridiculed Yun Chujiu and the other two, but he still ignored them.

Whether it was asking questions in class or answering questions, Yun Chujiu and the other two had never been involved, he had said many times to other teachers behind their backs, "Cheh! That Yun Chujiu just got lucky. She won't have any great prospects in the future!"

In the blink of an eye, a month had passed. Yun Chujiu felt that she should go to the Ye family for a stroll. Otherwise, Old Master Ye would probably forget about her.

However, the plan did not change quickly. On this day, teacher Dong announced that the first Test after entering the school would be held the next day. The last 30 students of the entire grade would be expelled.
