

## The Yun Family's Ninth Child is an Imp! Chapter 2349

When Yun Chujiu regained her sight, she realized that she was in a huge deep pit. When she looked up, she could barely see the edge of the pit wall.

The wall of the pit was as smooth as a mirror, but the bottom of the pit formed a world of its own.

They were in a barren land, and not far away was a grassland. In the distance, it seemed to be a dense forest.

Dean Gongsun showed everyone the shell fragments of the divine axe. They were made of a material that looked like stone but not stone. It was able to emit a faint golden light, making it easy to identify.

Everyone began to search according to the group. There was basically no hope of finding this wasteland because the field of vision here was very wide. If there were any fragments of the Divine Axe's shell, they would be able to see it at a glance.

Yun chujiu and the other two were not in a hurry. They had ten days anyway, so it was not bad to let everyone scout the way first. There might be some strange demonic beasts in this ancient deep pit, so it was better to be careful.

Yun chujiu walked to the edge of the stone wall and knocked on it. "This stone wall is quite similar to the stone wall of the Heavenly Dao Cliff. I wonder what kind of scene is on it. If it was not forbidden to fly, I would really like to fly up and take a look."

Jin Zhi rolled her eyes. "I guess it is to prevent people from climbing up, so this place is forbidden to fly. Just give up!"

Yun Chujiu's eyes lit up. A place that was afraid of people would definitely have good stuff! If it was forbidden to fly, others would not be able to fly up, but she had sticky silk. She could climb up!

Then the question came. Should she climb up or not?

If it was in the past, this guy might have climbed up because he was obsessed with money. However, after the honey incident last time, this guy had learned that nothing was more important than his life.

Jin Zhi knew this guy too well. She glared at her and said, "Don't even think about it! Let's go and find the shell fragments of the Divine Axe!"

Yun chujiu pouted and could only follow Jin Zhi and Xue Wuji.

This guy mumbled as he walked, "Do you think the Academy is sick? ! What can the broken shell fragments of the Heaven Punisher Divine Axe Do? Is it because the shell is good-looking? I think it's not as good-looking as the luminous pearls!"

Yun Chujiu's eyes lit up when she said this. She remembered that teacher Pang had promised her that if she got first place in the test, he would reward her with five luminous pearls.

The guy was immediately energized. Regardless of whether the broken shell pieces were useful or not, she had to get first place.

Perhaps because there were students scouting ahead, Yun Chujiu and the others did not encounter any high-level demon beasts two days ago. However, they did not find a piece of the shell pieces of the axe.

What Yun Chujiu and the others did not know was that a large screen had been erected in the Divine Axe Square. On it were the numbers of each team and the number of pieces of the Divine Axe's shell fragments that they had found.

Some teams had already found five pieces of the shell fragments. Most of them had found one to three pieces of the shell fragments. Only a few teams had not found a single piece of the shell fragment, as expected, team 106 was among them.

Teacher Dong pursed his lips and said, "How was it? I told you that Yun Chujiu was a good-for-nothing, right? What Heavenly Dao's favorite? Maybe she was just making up a lie."

It had to be said that teacher Dong was telling the truth. A certain Jiu was indeed making up a lie. It could only be said that the person who understood you the most was your enemy!

“This, it shouldn’t be, right? At that time, many people were present. Moreover, this test had only started for two days. Perhaps Yun Chujiu and the others would make a comeback later on! After all, during the entrance test, they would only make a comeback at the last stage every time.”Teacher Pang disagreed.
