

## The Yun Family's Ninth Child is an Imp! Chapter 2350

Another three days passed. Not only did Yun chujiu and the others not find a fragment of the priest's shell, they didn't even touch a single one.

The three of them thought that the dense forest was the end of the godly axe pit. Unexpectedly, when they passed through the dense forest, they found that there was a valley in front of them. Looking into the distance, they still couldn't see the end.

"This godly axe pit is really big. Where did those people go? Why didn't we meet any team?" Jin Zhi said in confusion.

"That's right. Although we walked a little slower, it's not to the extent that we can't see any team, right?" Xue Wuji frowned and felt that something was wrong.

Yun Chujiu was stunned at first. She felt that this time, it seemed to be a familiar smell and formula. Could it be that they were isolated again?

Could it be that the Godly Axe Valley had also produced a Qi Ling? It couldn't be, right?

If the Godly Axe Valley had produced a Qi Ling, why would they allow everyone to search for the shell fragments of the godly axe? They should have hidden everything long ago.

Then, what exactly was going on?

The three of them discussed for a while, but they couldn't come to a conclusion. Yun chujiu even deliberately provoked and cursed the so-called "Qi Ling" a few times, but there was no result.

The teachers in the Divine Axe Square looked at the changes in the data on the big screen and chatted from time to time.

"This batch of students seems to be very lucky. They found more than the previous few times."

"Yeah, they probably found the right place by coincidence. The students of the day class are indeed better. Most of the groups ranked at the front are from the day class."

"That's right. It seems that aptitude is very important. For example, Yun Chujiu and the other two. Five days have passed, but they still haven't found a single one. I guess they will most likely be expelled."

..

Teacher Dong listened from the side. If it were in the past, he might not be happy when others talked about the students of the Star class having poor aptitude. But now, when he heard that Yun Chujiu and the other two would be eliminated, he was actually very happy, it would be better if those three black sheep were expelled!

Teacher Pang stroked his beard. He didn't know if that little girl, Yun Chujiu, would create another miracle this time. He was really looking forward to it!

A certain jiu, whom teacher Pang had placed high hopes on, was currently doing her ideological work.

“Brother Wuji, Beauty Jin Zhi, you've all seen the current situation. We've definitely been scammed. Although we don't know who scammed us, it has only one purpose, and that is to prevent us from finding the fragment.

“If we want to break this deadlock, there's only one way, and that is to climb up!”

Xue Wuji and Jin Zhi hesitated for a moment and agreed to Yun Chujiu's suggestion. If they did not break down, they would not be able to establish themselves. If they continued to search below, they might really have to return empty-handed.

The three of them found a stone wall. Yun chujiu had made a lot of sand from the great void mystic realm and laid it under the stone wall. In this way, even if they really fell down, they would at least be able to keep their lives.

Although Xue Wuji and Jin Zhi were shocked that Yun chujiu had taken out so much sand, they did not pay too much attention to it when they thought that there was even a big rock in this storage ring.

After Yun Chujiu had laid out the sand, she then gave Xue Wuji and Jin Zhi a lot of sticky silk. The three of them began to climb up the stone wall.

The three of them climbed for a full ten hours. From dawn till sunset, they finally reached the top of the stone wall.

However, when the three of them saw the situation before them, they could not help but be greatly disappointed.

They originally thought that there would be many fragments of the Divine Axe's outer shell on it, but they did not expect that there were many stones on the ground, but they were all ordinary stones.
