

The Yun Family's Ninth Child is an Imp! Chapter 2356

"He was going to come in, but he had a stomachache, so he was a little late. He probably saw our situation and ran away," said Li Huan, who helped Yun Chujiu to count.

"When that Xue Mo sprayed the poisonous fog, would you be affected immediately? Or would you need to wait for a while? How many people would be affected by its poisonous fog once?" Yun chujiu continued to ask.

"The body will slowly stiffen, about 15 minutes! It can cover a distance of 40-50 Zhang with its poisonous fog once. If it's outside the attack range, it won't be affected," Li Huan said eagerly.

Yun chujiu nodded. Based on her initial judgment, that Xue Mo didn't wake up for a long time. Otherwise, the students from the Heaven Punisher Academy wouldn't be safe.

Since he had just awakened, his strength was definitely still very weak. If everyone worked together, their chances of winning were still very high.

An hour later, everyone in the Stone Hall returned to normal, Yun chujiu said solemnly, "Everyone, you've all seen it. That Xue Mo isn't something that we can deal with alone or with a few people. We must unite! "As long as we work together, we can definitely kill it.

“Don’t think that you can get away with anything. Our jade tokens are no longer effective. In this deep pit, we are like lambs waiting to be slaughtered. If we are a pile of loose sand, we can only be slaughtered.”

Li Huan immediately echoed, “Miss Yun, our lives were saved by you. We will do whatever you say!”

With someone taking the lead, the rest of the people also expressed their stance, indicating that they were willing to listen to Yun Chujiu’s arrangements.

Even if some people, such as Zhai Shanshan, were not willing, they did not dare to have any objections at this moment for the sake of their own lives.

“Alright! Since you insist, I will reluctantly agree to your request. But let’s be clear. If anyone does not listen to my orders, don’t blame me for being ruthless!” Yun chujiu straightened her back, her sharp eyes swept across everyone.

Everyone felt that Yun Chujiu’s gaze seemed to have substance. They could not help but feel a chill in their hearts. The people who had some petty schemes immediately scared away those thoughts.

“The space here is narrow. It’s advantageous to us. Let’s rush out!”

Everyone did not dare to have any objections. They followed Yun chujiu out of the tunnel and arrived outside.

Yun Chujiu felt that Xue Mo and Zhu Jingtie must have returned to that dense forest to look for them. If they failed to find them, they would return by the same route. Therefore, setting up an ambush along the path that they had to pass was the best choice.

Thinking of this, Yun chujiu chose a shrub and asked everyone to spread out and hide in the shrub.

“Bring this thing with you and put the Upper Clear Heart Pill in your mouth. You can last for at least fifteen minutes! When attacking, try to use long-range attacks. If someone is poisoned, your companions will immediately stuff the pill into his mouth. Do You Hear Me?” Yun chujiu took out a self-made gas mask painfully, she distributed it to everyone.

There were only a few dozen gas masks left in Yun Chujiu’s storage ring. It was obviously not enough. Yun chujiu asked everyone to make their own gas masks. There was no charcoal powder, she asked them to put some mind-clearing herbs or hay inside. In short, they could more or less play a role.

Just as the east was about to turn white, Xue Mo carried Zhu Jingtie and rushed back from afar.

Yun chujiu could not help but have a thought. She heard that Vampires were afraid of the Sun. Could it be that Xue Mo was also afraid of the Sun? That was why he rushed back?
