

## The Yun Family's Ninth Child is an Imp! Chapter 2359

Xiao Heiniaio wasn't sure either. Xue Mo wasn't like a human or a demon beast that was steady on the ground. Would it work?

Xiao Heiniaio didn't care and started to curse.

Xue Mo saw that everyone made a gap and ran towards it happily.

At this moment, it felt its body leaning forward involuntarily. Although its body wasn't solid, it slowed down when it leaned forward.

Seeing this, Yun chujiu shot out several bolts of lightning at it. However, these bolts of lightning contained the small flame of the ten-thousand-year-old fire marrow.

Yun Chujiu had never thought about the small flame. She did not expect that the small flame would take the initiative to attack this time!

Although Xue Mo had sensed Yun Chujiu's sneak attack from behind, it did not pay much attention to it. This Little Ant's strength was still very weak, so its damage was limited.

The reason why it was in a hurry to escape was not because it was afraid of the students of Xingtian Academy, but because it was afraid of the Sun in the sky!

Thinking of this, Xue Mo did not Dodge at all. Instead, it prepared to continue running forward. Otherwise, as time passed, the stronger the sun's rays were, the greater the damage it would suffer.

Therefore, Yun Chujiu's lightning bolts and the small flame hidden within them struck Xue Mo's back.

Xue Mo let out a shrill scream. Just like how it was afraid of Yun Chujiu's lightning bolts, the ten-thousand-year-old fire marrow was also an extremely masculine and Yang item. Xue Mo's figure was instantly burned by the small flame, leaving a hole in it.

Yun Chujiu's eyes lit up. Aiyo, the small flame was really something!

Yun chujiu shouted at the crowd, "Fire spirit root, attack it together. Since it's afraid of the Sun, it must be afraid of Fire!"

The reason why Yun chujiu shouted like that was because, firstly, she felt that Xue Mo was afraid of fire. Secondly, it was to hide the existence of small flames. After all, if the crowd could not see through it once, there would be a flaw if they used it a few more times.

Those students were upset about their cowardice just now. When they heard Yun Chujiu's words, the fire spirit root students immediately began to attack Xue Mo..

If they were not fire spirit root students, they might as well take out a fire fuse or fire stone to light something and throw it at Xue Mo. the crowd picked up firewood and the flames were high. What if it was useful!

Xue Mo screamed miserably as he was burned. Several holes were burned on his body, and his figure became fainter and fainter!

Just when everyone thought that they could burn him to death, Xue Mo summoned several pieces of the shell of the godly axe. Those pieces formed a stone egg, and Xue Mo's body turned into a wisp of red smoke and drilled into it.

Everyone was stunned at first, and then they continued to use fire to attack. Yun chujiu also used lightning with a small flame, but the stone egg was extremely hard. There was not even a single crack.

Everyone was dumbfounded!

Everyone used axes to chop and fire to burn. They used all the methods they could, but they still could not break the stone egg.

Even though they knew that Xue Mo was hidden inside the stone egg, they still could not break it. Could it be that they could only let it go?

Someone tried to activate the jade token, but it still did not work. It seemed that they had to kill this Xue Mo before they could get out.

Yun chujia frowned. It was daytime now, and they could still use the sun to control the Xue Mo. If it was nighttime, the Xue Mo would definitely counterattack. At that time, all their efforts would be for naught!

Since no one could open the stone egg, they vented their anger on Zhu Jingtie and beat him to death!

Yun chujia did not have the time to care about his life and death. All her attention was on the stone egg. How could she open the stone egg?

Yun chujia tried to use the small needle of spiritual power, but unfortunately, the small needle of spiritual power could not penetrate the stone egg at all. In fact, the stone egg was made of the shell of the heaven-punisher divine axe, so it was naturally extremely hard.
