

The Yun Family's Ninth Child is an Imp! Chapter 2362

Someone tried to activate the jade token and was actually teleported out.

Zhai Shanshan and the others could not wait to activate the jade token, afraid that Yun Chujiu would seek revenge on them.

Yun chujiu was not too anxious. It was obvious that the Xue Mo had already dissipated. Even if they were lucky enough to survive, it would not cause any harm to them for a while.

This fellow picked up the large kitchen knife and took a look. The large kitchen knife could actually split open the stone eggs and even kill the Xue Mo. could it be the Xingtian godly axe?

Yun chujiu shook her head. It couldn't be, right? Putting aside its appearance, this big kitchen knife was found in the Qing Xuan Continent. How could the heaven-punisher axe have come to the Qing Xuan continent?

Yun chujiu couldn't figure it out for a moment, so she simply put away the big kitchen knife. Then, she very naturally put away the large pile of axe shell fragments on the ground into her storage ring.

Although everyone saw it, they felt that Yun Chujiu deserved it, so no one said anything.

On the contrary, everyone thanked Yun chujiu for saving them.

Yun chujiu saw that the rest of them had different opinions from Zhai Shanshan and the others, so she smiled and said to everyone, "I saved you once, and you saved me just now. Let's call it even."

Everyone was not stupid. They knew that Yun Chujiu said this to make them feel better, and they felt even more grateful. They felt that the contempt they had for Yun chujiu in the past was extremely stupid!

If it were not for Yun chujiu this time, they would definitely have died in this sinkhole. Yun Chujiu was their savior.

Yun chujiu saw that there was nothing else, and the sky was getting dark, she said to everyone, "Let's leave this place too. Otherwise, Zhai Shanshan and the others might change the truth. Li Huan, take Zhu Jingtie's body with you. Don't let others make a fuss over his death."

Li Huan nodded. He put Zhu Jingtie's body into his storage ring as Yun Chujie said. Everyone activated their jade tokens and were teleported out.

However, Yun Chujiu and the other two strangely realized that while everyone else was out, the three of them were actually left behind..

“F * ck! They must have been tricked! If I find out who is behind this, I’ll kill him!”Yun chujiu was so angry that she threw her head back and roared.

On the other side, after the Xingtian Academy students were sent out, they heard that Zhai Shanshan and the others were twisting black and white, and they immediately retorted angrily.

The Divine Axe Square was already in a mess. Zhai Shanshan and the others had made up a story, and the students who came out later on made up another story. For a time, the teachers of Xingtian Academy were all confused.

Xue Mo?

There was actually a Xue Mo imprisoned in the Divine Axe Crater?

However, even though Zhai Shanshan and the others had twisted the truth, what kind of people were Dean Gongsun and the others? ! How could they not be able to tell the truth from the lies? !

Very quickly, the lies of Zhai Shanshan and the others were exposed. They were ordered to take care of them first before they were dealt with according to the rules of the academy.

At this moment, someone exclaimed, “Yun chujiu and the other two actually did not come out! This, what should we do?”

At this moment, everyone realized that there was really no trace of Yun Chujiu and the other two. What was going on?

Dean Gongsun frowned. Putting aside the fact that Yun Chujiu was now the direct daughter of the Ye family, just because she saved everyone, she couldn't just stand by and watch as something happened to her. “Teacher Pang, bring some people into the sinkhole and save them.”

Teacher Pang immediately ordered a few people to enter the teleportation array. He never expected that the teleportation array would explode with a bang!

A thought appeared in everyone's mind. It was over! Yun chujiu and the other two would never be able to come out again!
