

## The Yun Family's Ninth Child is an Imp! Chapter 2363

“What’s going on? This teleportation array is an ancient array formation. Why did it suddenly explode?”

The crowd was in an uproar. This ancient array formation was not something that could be repaired just like that. Without three to five years of time, it would not be able to be repaired. Moreover, it might not be able to be repaired at all. Yun chujiu and the other two might never be able to come out again.

The first grade students pleaded one after another, “Dean, you must think of a way! If it wasn’t for Yun Chujiu and the other two, we would have died inside.”

“That’s right, dean, quickly find someone to repair the teleportation array formation! Although that Xue Mo has dissipated, he might not be dead yet. If we delay any longer, Yun Chujiu and the others might lose their lives!”

..

Dean Gongsun gestured for everyone to calm down. “Go back and wait for the news. We will think of a way to rescue Yun Chujiu and the others.”

The students knew that it was useless for them to stay here, so they left the divine axe plaza worriedly.

Dean Gongsun immediately got his teacher, who was proficient in array formations, to check the teleportation array. Soon, an old man with a slight hunchback gave Dean Gongsun a look.

Dean Gongsun understood and the two of them went to Dean Gongsun's study.

"Dean, according to common sense, this teleportation array is an ancient array formation and is very difficult to destroy. But this time, it seems to be the self-destruction of the array formation, but I found this."

The hunchbacked old man handed Dean Gongsun a small piece of charred fragment. Dean Gongsun took it and looked at it, then said in puzzlement, "Array leaf? The array formation has been destroyed. Isn't it normal to have fragments of array leaves?"

"Although this array leaf is also drawn with ancient runes, the material of this array leaf is different from the original array leaf. Clearly, someone has tampered with the teleportation array." A fierce look flashed through the hunchbacked old man's eyes, he actually dared to tamper with the ancient teleportation array. What audacity.

Dean Gongsun was both angry and angry, he frowned and asked, "Elder Zhuang, I still have one more question. The teleportation array is under the divine axe statue. This divine axe statue requires the combined efforts of me and the five vice principals to move it. How did that person do it?"

The hunchbacked elder shook his head. "I am also puzzled. Perhaps he tampered with it after the students entered. Furthermore, that person is clearly extremely proficient in ancient runes. He is

probably even more proficient than me in ancient runes. I wonder what that person is hiding in the Sky Punisher Academy for.”

“Elder Zhuang, let’s keep this matter a secret for the time being to avoid alerting the enemy. How long will it take for the teleportation array to be repaired?” Dean Gongsun’s expression turned even colder, if this matter was said to be a plot against Yun Chujiu and the other two, then if it was said to be a big matter, then that person must have some ulterior motive.

Elder Zhuang sighed. “The array disk that that person placed was extremely powerful, destroying almost half of the teleportation array. “We don’t know much about ancient runes. is the repair too big? I’m afraid that it would take at least ten years to completely repair it.”

Dean Gongsun also sighed. It seemed that the beloved son of Tian Dao that he had mentioned earlier was indeed not to be trusted. If that Yun Chujiu was really the beloved son of Tian Dao, she would not have suffered such a disaster.

Although the lifespan of a cultivator was very long, ten years could change many things. Moreover, the situation inside was unknown, and it was hard to say if she would be able to keep her little life.

“Elder Zhuang, take some people and start repairing the teleportation array! As for the matter of someone sabotaging it, don’t mention it again. Just say that it might be an explosion caused by the teleportation array being in disrepair for a long time. I will arrange for people to secretly investigate.”

After elder Zhuang agreed, he got up and left the study.
