

The Yun Family's Ninth Child is an Imp! Chapter 2367

Yun Chujiu and Jin Zhi bickered while helping Xue Wuji build a awning.

With ready-made wood and tools, a simple awning was quickly built. Yun Chujiu disliked the rocks in the awning and used a shovel to move them outside.

After cleaning up, the three of them set up a bonfire and began to roast meat.

At this time, the rain fell pitter-patter. It seemed that it would not stop for a few hours.

After the three of them ate the roast meat, Xue Wuji said, "The journey these few days has been very tiring. You two can take a nap. I'll be on guard."

Yun Chujiu and Jin Zhi did not stand on ceremony. At night, they were afraid that there would be demonic beasts, so they did not sleep well. It was perfect for catching up on sleep on rainy days.

Just when Yun Chujiu was sleeping soundly, she was woken up by Xue Wuji's surprised voice. "Look!"

Yun chujiu opened her eyes and was stunned when she saw the scene in front of her.

Jin Zhi cried out in surprise, "Oh my God! These stones actually, actually blossomed!"

The originally gray stones actually blossomed into beautiful flowers. Regardless of whether it was large stones or small stones, they all blossomed into beautiful flowers.

Only some of the stones at the edge of the awning were still gray because they were not drenched in the rain.

Yun Chujiu recalled that in her previous life, there was a kind of fleshy flower called a raw stone flower. It usually looked like a stone, but when it reached the flowering period, it would bloom. Could it be that these stones were actually plants?

Yun Chujiu thought of this and picked up a stone at the edge. No matter how she looked at it, it was still a stone. She simply took the large kitchen knife and slashed at the stone.

The stone actually let out a shrill scream. Its originally hard shell instantly turned into powder.

Not only was it a plant, it was actually a living demonic plant!

Yun chujiu and the other two immediately felt a huge crisis. If these demonic plants did not attack people, it would be fine. But if they attacked people, they would be dead for sure!

There were all these demonic plants here. They had nowhere to run.

Yun chujiu made a prompt decision. “No matter what, since they can only bloom with rain water, they should be afraid of fire. Let’s build a bonfire just in case.”

The three of them built a few bonfires in the awning. Although it was very hot, it was still better than being attacked by the demonic plants.

Jin Zhi exclaimed again, “Oh my God! Not only can they bloom, they even bear fruit!”

Yun chujiu looked up and saw that some of the ‘stones’ had already begun to wither and turn into small stones. Indeed, they were bearing fruit.

Since they had already borne fruit, they probably wouldn’t attack them, right?

Soon, many of the 'stones' began to bear fruit. One after another, they heard the sound of small stones falling to the ground.

Yun chujiu and the other two stared at those 'stones', afraid that they would suddenly attack.

For some reason, Yun chujiu thought of the poisonous grass at the bottom of the Heaven Dao Cliff. These "Rocks" were definitely not easy to deal with. Otherwise, there would not be any living things on them.

Thinking of the Heaven Dao Cliff, Yun Chujiu's eyes lit up. She took out the small rock given to her by the Heaven Dao cliff and recited it according to the chant, but there was no response!

She recited it again, but there was still no response!

F * ck! The Tian Dao cliff was such an idiot. They were bragging so much, but now, there was no way to contact it.

If the Tian Dao cliff knew, they would probably die of injustice. The small rock would only be effective within 5,000 miles. Yun Chujiu and the others were more than 5,000 miles away!

Seeing that the small rock did not respond, Yun chujiu had no choice but to put the small rock away.

“Small nine! You Look!” Jin Zhi’s voice slightly trembling.
