

The Yun Family's Ninth Child is an Imp! Chapter 2371

It had to be said that birds of a feather flock together. Jin Zhi was also a heartless person. After putting away the voice transmission talisman, she said with a smile, "Little Jiu, we can play truant openly! After we have wandered enough, we can go back to the Academy."

Xue Wuji also echoed from the side, "That's right. This time, we narrowly escaped death. We have to travel around the mountains and rivers to heal my wounds! I was actually piggybacked by little jiu several times. How embarrassing!"

Yun chujiu was about to speak when she felt someone approaching.

The three of them immediately raised their vigilance and looked into the distance.

Yun chujiu lowered her head and grabbed two handfuls of soil. She wiped it on her face and then motioned for Xue Wuji and Jin Zhi to wipe the soil on their faces as well. Although Xue Wuji and Jin Zhi did not quite understand Yun chujiu's meaning, they still followed her instructions.

Two people ran over from afar. One of them shouted angrily while running, "Hey! Stay away from the fan family's sacred stream!"

Fan Family? Sacred Stream?

Fortunately, the three of them had drunk water just now and were some distance away from the stream. Otherwise, they would really be caught red-handed.

The two of them ran to the front and looked at the three of them unhappily. "How did you get into the back mountain of our fan family? Don't you know that this is our fan family's territory?"

Yun chujiu said in surprise, "Oh my God!" "This is the back mountain of the Fan Family?" "We are lost. We don't know what happened. We couldn't get out no matter how hard we tried. We almost died in the desert in front of us." "Benefactors, it's so good to see you. Please help us get out!"

Xue Wuji and Jin Zhi were used to Yun Chujiu's acting skills being online at any time. Therefore, the two of them showed a pleasantly surprised expression and cooperated seamlessly!

The two of them looked at each other and one of them said, "Entered by mistake? There are people guarding the back of the mountain. How did you enter by mistake? Tell me, what is your purpose!"

Yun chujiu looked innocent. "You two have seen it too. Our spiritual power is so low, what can we do? Unless we don't want to live anymore, that's why we are seeking death."

"Brother Li, I don't think they're lying. weren't there lightning and thunder a few days ago? I think they entered by mistake." One of them guessed.

The other frowned. "That's possible. What should we do now? Should we hand them over to the higher-ups or let them go? If we're not afraid of polluting the sacred stream, we should just kill them."

Yun Chujiu's eyes darkened. Kill them? ! If they dared to make a move, who knew who would die? !

"Brothers, meeting each other is fate. We don't have anything good on us. You two can buy some tea with these spiritual stones!"

Yun chujiu pretended to transfer a portion of the spiritual stones from Xue Wuji and Jin Zhi and gave them 50,000 upper-grade spiritual stones each.

Naturally, it wouldn't work if it was too much. It would easily trigger their greed, and they might even kill them for their wealth. Since it wouldn't work if it was too little, they might as well not give it to them.

After receiving the spirit stones, their attitude softened a little. When they saw the miserable appearance of Yun Chujiu and the other two, and the clothes they were wearing weren't of any expensive material, they guessed that they only had so many spirit stones on them.

"Forget it. Since we're in a good mood today, we'll spare you. Come with us, and we'll send you out." One of them curled his lips and said.

Yun chujie and the other two naturally thanked him profusely and followed the two out.

Yun chujie rejoiced in her heart. Fortunately, the three of them had already changed out of the Xingtian Academy's clothes. Otherwise, it would have been easy to get into trouble.

Although she didn't know if this fan family was the fan family that ye Xinwan had married into, it was very likely that the fan family was the super aristocratic family that had such a large backhills. It was better to not provoke them.
